PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Architected and implemented scalable UIs using **React** and **TypeScript**, ensuring high standards for performance and accessibility, directly impacting user engagement metrics by **15%**.
- Developed and maintained efficient **Node.js RESTful APIs** using **Express**, supporting critical business logic and achieving a **99.95%** uptime SLA for core platform services.
- Documented and defined API contracts meticulously using **OpenAPI (Swagger)**, reducing integration errors by **20%** and streamlining cross-team development workflows.
- Implemented **Test-Driven Development (TDD)** methodologies with **Jest** and **React Testing Library**, increasing code coverage to **90%** and reducing production defects by **30%**.
- Integrated **AI-driven features** by connecting frontend layers with LLM services, enhancing the customer journey and contributing to a **10%** increase in feature adoption rates.
- Maintained design consistency and accelerated development velocity by leveraging **Tailwind CSS** and **shadcn/ui**, delivering new user interface components **25%** faster.

SKILLS

Frontend Development – React, TypeScript, HTML, CSS, Tailwind CSS, shadcn/ui

Backend Development – Node.js, Express, RESTful APIs, OpenAPI (Swagger)

Testing & Quality Assurance – TDD, Jest, React Testing Library

AI Integration – LLM Services, AI Workflows

Cloud & DevOps – Docker, GCP, CI/CD

Databases – PostgreSQL, MySQL, Oracle

Programming Languages – JavaScript, Python, Java, SQL

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

AI-Powered Travel Connectivity Platform (Holafly)

- Designed and built a scalable frontend architecture using **React** and **TypeScript**, integrating **AI-driven features** for personalized connectivity recommendations, which improved user conversion by **18%**.
- Developed robust **Node.js RESTful APIs** with **NestJS** to manage user profiles, eSIM data plans, and payment gateway interactions, handling over **1 million transactions** monthly with sub-second latency.

- Implemented comprehensive API documentation using **OpenAPI (Swagger)** and established a **TDD** workflow with **Jest**, achieving **95% code coverage** and reducing critical bugs by **35%**.
- Leveraged **Tailwind CSS** and **shadcn/ui** to create a consistent and accessible user interface across web and mobile platforms, accelerating UI development by **30%**.
- Containerized the application using **Docker** and deployed to **GCP** via **CI/CD** pipelines, ensuring seamless integration and consistent environments from development to production.

Financial Services Transaction Monitoring System (HCL Technologies)

- Developed production support and monitoring capabilities for a **payments operations dashboard** using **Java Spring Boot** and **Python**, ensuring **99.9%** uptime for critical financial transaction flows.
- Implemented transaction monitoring and alerting for failed/stuck payment messages, reducing manual intervention by **40%** through automated diagnostics and reporting.
- Managed change-control processes and conducted UAT for system configuration updates, ensuring seamless integration with interconnected enterprise business systems across **PostgreSQL** and **Oracle** databases.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
