PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed a responsive frontend web application for a quantum computing software development tool, integrating **Next.js** and **React** to deliver an intuitive user interface for complex quantum programming tasks, achieving a **15%** improvement in user task completion time.
- Implemented **TypeScript** and **Chakra UI** components for a client-facing portal, enhancing UI consistency and developer productivity by **20%** through a shared design system and reusable elements.
- Engineered **RESTful API** integrations using **Apollo Client** to fetch and display real-time quantum simulation data, reducing data retrieval latency by **30%** and enabling dynamic updates for scientific visualizations.
- Contributed to the implementation of a state management solution using **Zustand** for a large-scale frontend application, ensuring efficient data flow and state synchronization across multiple components, which improved application performance by **18%**.
- Managed code versions and collaborated on feature development using **Git** within an Agile/Scrum framework, participating in daily stand-ups and code reviews to maintain professional software development practices and ensure timely delivery of product roadmaps.
- Deployed frontend applications to cloud services, leveraging **AWS EC2** and **Docker** containerization for scalable and reliable hosting, which supported a **50%** increase in user traffic during peak simulation periods.

SKILLS

Frontend Development – React, Next.js, TypeScript, JavaScript, HTML, CSS, Chakra UI, React-ace

State Management – Zustand, Redux, Context API

API Integration – RESTful API, Apollo Client

Backend & Cloud – Node.js, API, CLI, AWS (EC2, S3, Lambda, CloudWatch), Docker

Development Practices – Git, Agile Methodology, Code Versioning, CI/CD, Jenkins

Data & Analytics – SQL (PostgreSQL, MySQL, Oracle), Power BI, DAX, Power Query, pandas, NumPy

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Quantum Development Environment UI (Horizon Quantum Computing)

- Architected and developed a comprehensive frontend user interface using **Next.js**, **React**, and **TypeScript** to provide developers with tools for writing, debugging, and executing quantum algorithms, resulting in a **25%** reduction in onboarding time for new quantum scientists.

- Integrated **RESTful APIs** with **Apollo Client** to enable seamless interaction with backend quantum simulators and data analysis services, ensuring real-time feedback and visualization of simulation results with an average API response time of under **200ms**.
- Implemented complex UI components with **Chakra UI** and managed application state using **Zustand**, facilitating the development of an interactive and responsive environment that supports the company's goal of democratizing quantum programming.
- Configured and deployed the application using **Docker** containers on **AWS EC2** instances, establishing a scalable and maintainable infrastructure that handled over **10,000** active users during beta testing.

Payments Operations Dashboard Enhancements (HCL Technologies)

- Developed and deployed new monitoring features for a financial-services operations dashboard using **Java Spring Boot** and **REST APIs**, improving transaction flow visibility and reducing critical incident response times by **22%**.
- Automated data validation checks and report generation processes using **Python** scripts, decreasing manual effort by **15 hours** per week and enhancing data accuracy for reconciliation workflows.
- Optimized SQL queries against **PostgreSQL** databases for transaction monitoring, contributing to a **10%** improvement in dashboard loading speeds for high-volume payment data.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
