

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Maintained **99.95% availability** for critical production applications by performing proactive monitoring and P1/P2 incident response using **Splunk** and **Dynatrace**, achieving SLA targets.
- Automated routine operational tasks and data pipeline processes by developing **Python scripts**, reducing manual effort by **30%** and improving data processing efficiency.
- Executed **production changes** and implemented new features for a financial-services operations dashboard, including **Java Spring Boot** REST API development, contributing to a **15%** increase in system responsiveness.
- Managed and resolved operational support requests for enterprise business systems, coordinating **change-control management** and UAT support to ensure seamless system updates.
- Developed and refined **SOPs, policies, and procedures** for system requirements and operational standards, ensuring accuracy and relevance for a **5000+ node** Linux environment.
- Generated detailed **performance reports** and analyzed key performance indicators (KPIs) using **Power BI**, providing data-driven insights that informed engineering enhancements and supported **99.99% uptime** goals.

SKILLS

Cloud Operations – AWS, EC2, S3, Lambda, CloudWatch, Docker, Infrastructure as Code (IaC)

Monitoring & Observability – Splunk, Dynatrace, Performance Reporting, KPI Analysis

Automation & Scripting – Python, Java, Shell Scripting

Databases & Data Management – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing, ETL

Development & Support – Java Spring Boot, REST APIs, CI/CD, Jenkins, Git, Linux, Production Support, Incident Management

Business Intelligence – Power BI, DAX, Tableau, Data Modelling

Enterprise Systems – ERP Support, Change Management, UAT Coordination

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Automated Cloud Operations & Observability Platform

- Engineered an automated platform for monitoring a **5000+ node cloud environment**, achieving and maintaining **99.99% availability** through proactive issue detection and rapid incident response.
- Developed **Python automation scripts** and integrated **IaC practices** (e.g., Terraform concepts) to streamline deployments, reduce manual intervention by **40%**, and ensure consistent configuration across all cloud

resources.

- Implemented comprehensive observability using **Splunk and Dynatrace**, generating actionable performance reports and analyzing KPIs to forecast trends and recommend proactive infrastructure enhancements, directly supporting SLA adherence.

Financial Services Transaction Monitoring Dashboard

- Supported production operations for a **payments operations dashboard**, focusing on transaction-flow monitoring and alerting for failed payment messages, ensuring **99.9% processing uptime**.
- Collaborated with business analysts to gather requirements for operational alerting and reconciliation workflows, translating needs into technical specifications for **Java Spring Boot** features and **SQL** database enhancements.
- Managed change control for system configuration updates and post-implementation triage within a **GDPR-aware production environment** with strict audit trail requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
