PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and deployed **Java Spring Boot microservices** for a financial-services client, enhancing transaction processing capabilities and reducing latency by **15%**.
- Automated data validation and reporting processes using **Python scripts**, decreasing manual effort by **20 hours per week** and improving data accuracy.
- Managed production incidents for enterprise applications, achieving a **99.95% SLA adherence** through proactive monitoring with **Splunk** and **Dynatrace**.
- Implemented **RESTful APIs** to integrate ERP modules with operational platforms, streamlining data flow and supporting critical business functions across interconnected systems.
- Designed and published interactive **Power BI dashboards** for senior management, visualizing key performance indicators and enabling data-informed decision-making, resulting in a **10% improvement** in operational efficiency.
- Supported change management initiatives for enterprise business systems, coordinating UAT and post-go-live activities to ensure seamless system updates for over **500 users**.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Business Intelligence – Power BI, Tableau, DAX, Power Query

Observability & Monitoring – Splunk, Dynatrace

Enterprise Systems – ERP Integration Support, Change Management

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

AI-Powered Customer Insights Platform (IMPT)

- Engineered a **Python-based data pipeline** using **pandas** and **NumPy** to ingest and process customer interaction data from multiple sources, achieving a data processing throughput of **10,000 records per second**.
- Developed predictive models with **scikit-learn** to identify customer churn indicators, achieving an accuracy of **88%** and enabling targeted retention campaigns that reduced churn by **7%**.

- Designed and implemented **REST APIs** using **FastAPI** for seamless integration with existing IMPT customer relationship management systems, facilitating real-time data access for AI model inference.

Financial Transaction Monitoring Dashboard (HCL Technologies)

- Enhanced a **Java Spring Boot application** to monitor real-time financial transaction flows, reducing the detection time for failed payments by **30%**.
- Developed automated alerts and reporting mechanisms using **Python**, decreasing manual oversight requirements for payment reconciliation workflows by **25%**.
- Optimized **SQL queries** against PostgreSQL databases for transaction data analysis, improving dashboard load times by **20%** and supporting regulatory audit trail requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
