

# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India** **09/2021 – 01/2025 (3.5 Years)**

---

- Developed and maintained **real-time networking infrastructure** for cloud-connected access control systems, achieving 99.95% uptime under simulated unreliable network conditions.
- Engineered **device-to-cloud communication systems** using **Java Spring Boot** and **AWS Lambda**, processing over 1 million device messages daily with sub-second latency.
- Implemented distributed coordination mechanisms and reliability patterns for a fleet of 5,000+ **Linux-based controllers**, reducing system failures by **40%** through proactive health monitoring.
- Designed and deployed secure **device identity and authentication** protocols, integrating short-lived credentials and certificate rotation to fortify system security against unauthorized access.
- Automated large-scale **Linux device fleet management** tasks, including secure over-the-air updates and configuration rollouts, reducing manual deployment time by **75%**.
- Enhanced **observability, debugging, and production tooling** by integrating **Splunk** and **Dynatrace** dashboards, enabling rapid P1/P2 incident response and reducing mean time to resolution by **30%**.

## SKILLS

**Backend Development** – Java Spring Boot, Python, REST APIs, Microservices, NestJS, Node.js, Rust

**Cloud & Infrastructure** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Linux Systems

**Databases** – PostgreSQL, MySQL, Oracle

**Networking & Reliability** – Real-time Networking, Distributed Systems, Event-Driven Architecture, Reliability Engineering, Fleet Management

**Observability & Tooling** – Splunk, Dynatrace, Jenkins, Git, Jira, Confluence

**Data & Analytics** – Power BI, Tableau, DAX, Power Query, SQL, Data Warehousing

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin** **02/2026**

---

**BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India** **01/2021**

---

## PROJECTS

**Real-Time Device Coordination and Fleet Management Platform (HCL Technologies)**

- Architected and built a **distributed coordination and reliability** layer for a fleet of 5,000+ embedded Linux devices operating under challenging network conditions, ensuring 99.99% message delivery success.
- Developed **event-driven backend infrastructure** using **Java Spring Boot** and **PostgreSQL**, processing real-time device status updates and triggering automated alerts for system anomalies.

- Engineered secure **device <-> cloud communication systems** with robust authentication and authorization, enabling safe and reliable fleet management operations and reducing unauthorized access incidents by **95%**.

#### **Financial Services Operations Dashboard Enhancement (HCL Technologies)**

- Enhanced a **payments operations dashboard** by developing new Java Spring Boot microservices to monitor transaction flows and provide real-time alerting for failed payment messages, improving operational visibility by **50%**.
- Automated data validation and reconciliation workflows using **Python scripting** and **SQL** against PostgreSQL and Oracle databases, reducing manual reconciliation effort by **35%**.
- Implemented improved logging and monitoring using **Splunk**, reducing the mean time to identify and resolve production incidents by **25%** and ensuring adherence to strict SLAs.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
