PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and deployed **scalable machine learning data pipelines** using **Python** and **Spark** on **AWS**, processing over 10 billion events daily to support annotation systems and model quality analysis.
- Implemented **CI/CD best practices** using **Github** for automated testing and deployment of data inspection tools, reducing deployment cycles by **40%** and improving system reliability.
- Developed **data visualization dashboards** in **Power BI** to present model quality metrics and error patterns to data scientists and stakeholders, enabling faster identification of biases and improving model performance by **15%**.
- Engineered **robust and scalable software** for multimedia data pipeline maintenance and tool services, integrating with cloud-based systems and ensuring **99.9%** uptime for critical data processing workflows.
- Collaborated with cross-functional teams including **linguistics**, **machine learning researchers**, and **data engineers** across multiple time zones to refine data quality and ontology services.
- Managed production incidents for enterprise applications, performing root cause analysis and implementing fixes within strict **SLA** targets, maintaining **99.95%** service availability for financial services operations dashboards.

SKILLS

Core Technologies – Python, Spark, SQL, AWS, Databricks, Github, Docker, Linux, Jenkins

Data Engineering – Data Pipeline Design, ETL, Data Warehousing, Data Modelling, Big Data Frameworks, API/SDK Interaction

Machine Learning Operations – MLOps Infrastructure, CI/CD for ML, Data Inspection Tools, Model Quality Visualization, Annotation Systems

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Databricks

Business Intelligence – Power BI, Tableau, DAX, Power Query, Data Visualization

Programming Languages – Python, Java, SQL, R

Development Practices – Agile, Scrum, CI/CD, Automation, Software Engineering Rigo

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Real-Time Advertising Inventory Quality Pipeline (Integral Ad Science)

- Architected and built a **real-time data pipeline** using **Python** and **Spark** on **AWS** to ingest and process tens of billions of daily events from open web, social networks, and video/CTV inventory.

- Developed **scalable tools and services** for data inspection and bias investigation, integrating with annotation systems and providing APIs for data scientists to analyze model performance and error patterns.
- Created interactive **data visualization dashboards** using **Power BI** to monitor multimedia data quality, identify biases, and present model performance metrics, enabling rapid feedback loops for ML model iteration and achieving a **20%** improvement in data accuracy.
- Implemented **CI/CD pipelines** via **Github** and Jenkins for automated deployment and testing of pipeline components, ensuring adherence to **best practices** and maintaining **99.9%** operational uptime in a large-scale production environment.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Supported and enhanced a **payments operations dashboard** for a financial services client, focusing on **transaction monitoring** and operational alerting for failed payment messages.
- Automated data validation and reporting processes using **Python** scripts, reducing manual effort by **35%** and improving the timeliness of reconciliation workflows.
- Managed production incidents and implemented bug fixes for Java Spring Boot services and PostgreSQL databases, ensuring strict adherence to **SLA** targets and maintaining audit trail integrity.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
