**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Intelligent Lead Generation & CRM Integration Platform

- Developed an end-to-end automation system to optimize lead generation and client acquisition workflows for a legal support operations partner.
- Engineered robust web scraping modules in Python to gather prospect data from multiple online sources, managing sessions and rate limits to achieve 99% data capture reliability.

- Implemented an OCR and document parsing pipeline for scanned agreements and digital files, extracting key client information and integrating it into a centralized database, reducing processing overhead by 60%.

Payments Operations Dashboard Enhancement

- Supported a financial-services client's payments operations dashboard by enhancing transaction monitoring and operational alerting for failed payment messages.
- Developed Python scripts for data validation and automated reporting, improving the accuracy of reconciliation workflows and reducing manual oversight by 35%.
- Managed incident response for production systems with strict SLAs, ensuring audit trail integrity and adherence to GDPR awareness in a high-volume transaction processing environment.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
