

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and deployed **machine learning models** using **Scikit-Learn** to predict system failures, reducing unscheduled downtime by **18%** through proactive maintenance scheduling.
- Developed scalable **data models** and schemas for **time-series telemetry**, supporting AI initiatives and improving data ingestion efficiency by **30%**.
- Integrated **AI capabilities** into production systems via **REST APIs**, enhancing operational workflows and enabling automated responses to detected anomalies, decreasing manual intervention by **25%**.
- Optimized **production AI systems** for anomaly detection and performance forecasting, maintaining **99.5%** model accuracy and adapting to changing operational conditions, mitigating model drift.
- Automated **transaction monitoring** and reconciliation workflows on a financial-services dashboard, improving processing speed by **40%** and ensuring adherence to **GDPR** standards.
- Managed change control for enterprise business systems, coordinating UAT and post-go-live support for integrations across **PostgreSQL** and **Oracle** databases, ensuring **99.9%** system availability.

SKILLS

AI/ML Engineering – Machine Learning, Predictive Modeling, Anomaly Detection, Optimization Techniques, PyTorch, TensorFlow, Scikit-Learn, Time-Series Analysis.

Backend & Infrastructure – Python, Java, Spring Boot, Node.js, TypeScript, Docker, Containerization, AWS, Linux, Shell Scripting, CI/CD, Jenkins.

Data & Databases – SQL, PostgreSQL, MySQL, Oracle, Data Modeling, Data Warehousing, ETL, Power Query, DAX.

BI & Visualization – Power BI, Tableau, R/RStudio.

Operations & Support – Production Support, Incident Response, SLA Management, Splunk, Dynatrace, Change Management, Agile/Scrum.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Real-Time IoT Telemetry Optimization Platform

- Engineered a distributed system to ingest and process high-volume **IoT-style telemetry** data, handling over **1 million events per hour**.
- Developed **predictive maintenance models** using **Python** and **Scikit-Learn** to forecast device failures, achieving an early detection accuracy of **92%** and reducing critical incidents by **22%**.

- Implemented a **Node.js** backend with **TypeScript** for real-time data analysis and API delivery, integrated with **PostgreSQL** for historical data storage and deployed using **Docker**.

Financial Services Transaction Monitoring Dashboard

- Developed and maintained a **payments operations dashboard** using **Java Spring Boot** and **Python** for data aggregation, focusing on transaction-flow monitoring and operational alerting.
- Implemented automated reconciliation workflows and transaction monitoring features, increasing processing throughput by **35%** and ensuring data integrity for audit trails.
- Supported production environments with strict SLAs and **GDPR** awareness, resolving P1/P2 incidents within defined response times and collaborating with business analysts for UAT.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
