

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **Node.js** backend microservices for a decentralized digital asset platform, achieving **99.99% uptime** for critical wallet infrastructure.
- Engineered high-performance **REST APIs** and distributed systems to manage **real-time transactions** at scale, supporting over **1 million daily operations**.
- Implemented robust backend security protocols, including **secure coding practices** and data encryption, safeguarding sensitive user assets and system integrity across the platform.
- Optimized **MySQL database** performance for large-scale data retrieval and synchronization, reducing query latency by **30%** and enhancing system responsiveness.
- Collaborated with cross-functional teams in an **Agile Scrum** environment to deliver innovative backend solutions, contributing to architectural decisions for system reliability and scalability.
- Troubleshoot and resolved complex backend performance issues, identifying and implementing optimizations that increased overall system throughput by **20%**.

SKILLS

Backend Development – Node.js, JavaScript, Microservices, Distributed Systems, REST APIs, High Availability, Scalability, Security Principles, Agile Methodologies

Databases – MySQL, MongoDB, SQL, Data Storage, Data Retrieval, Data Synchronization

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, CI/CD, Jenkins, Git, Linux

Programming Languages – JavaScript, Python, Java, SQL, R

Financial Technology – Digital Asset Solutions, Blockchain Concepts, Peer-to-Peer Technologies, Fintech Ecosystems

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Statistical Analysis

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Decentralized Wallet Infrastructure (HCL Technologies)

- Architected and built a secure, scalable **Node.js backend** for a decentralized digital asset wallet, handling **100,000+ user accounts** and managing secure transaction flows.
- Integrated **peer-to-peer technologies** and implemented robust **database solutions (MySQL)** for efficient data synchronization and high-availability operations, achieving **99.95% uptime**.

- Developed comprehensive **backend security principles**, including encryption and authentication mechanisms, to protect user assets and ensure system integrity against potential threats.

Payments Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a **Java Spring Boot** based payments operations dashboard to improve transaction monitoring and operational alerting for failed payment messages, reducing manual intervention by **15%**.
- Automated data validation and reporting processes using **Python scripting**, streamlining reconciliation workflows and ensuring data accuracy across financial services operations.
- Managed production support and incident response for the dashboard in a **GDPR-aware** environment, meeting strict SLAs and maintaining audit trails for financial transactions.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
