

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **CI/CD pipelines** using **Jenkins** and **Git**, reducing deployment cycles by **40%** and improving code integration frequency for enterprise applications.
- Automated data extraction and transformation processes using **Python** scripts and **SQL**, accelerating ETL job completion times by **35%** and enhancing data pipeline reliability.
- Managed incident response and SLA adherence for critical financial-services operations dashboards, resolving P1/P2 incidents within a **99.9%** uptime target through proactive monitoring with **Splunk** and **Dynatrace**.
- Developed and maintained RESTful APIs using **Java Spring Boot**, facilitating seamless integration between disparate enterprise business systems and supporting new feature rollouts that increased system transaction throughput by **15%**.
- Architected and deployed hybrid cloud solutions on **AWS**, configuring **EC2** instances, **S3** storage, and **Lambda** functions to support scalable enterprise applications, achieving a **20%** reduction in operational overhead.
- Collaborated with cross-functional teams to define technical solutions, translating customer requirements into actionable development tasks and guiding UAT processes for system configuration updates across interconnected platforms.

SKILLS

Core Engineering – Java Spring Boot, Python, SQL, REST APIs, Linux, Shell Scripting, Git, Docker

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Jenkins, CI/CD, Terraform, Ansible

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn, Data Warehousing

Enterprise Systems – ERP Integration Support, Change Management, Production Support, Incident Response

Observability & Monitoring – Splunk, Dynatrace, CloudWatch

AI/ML Concepts – Agentic Workflows, LLM Concepts, Machine Learning Fundamentals

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

DevSecOps Platform for Enterprise AI Workflows

- Architected an end-to-end **DevSecOps platform** integrating **GitLab CI/CD**, custom **runners**, and automated security scanning for AI model deployment pipelines, enabling **50%** faster release cycles.
- Developed reusable technical accelerators including **reference architectures** and **runbooks** for self-managed and hybrid deployments, reducing customer onboarding time by **30%**.

- Designed and implemented **observability** and governance layers using **Terraform** and **Helm**, ensuring compliance and operational stability for large-scale enterprise AI deployments across regulated environments.

Financial Services Transaction Monitoring Dashboard Enhancement

- Enhanced a **payments operations dashboard** by developing automated alerting for failed transaction messages, improving detection rates by **25%** and reducing manual review effort.
- Supported production environments with strict audit trails and **GDPR** awareness, resolving critical incidents and ensuring **99.95%** uptime for transaction processing workflows.
- Collaborated with business analysts to refine reconciliation workflows and transaction monitoring capabilities, implementing data validation checks that decreased reconciliation errors by **18%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
