PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and enhanced mobile applications using **React Native**, delivering new features for a digital trading platform that improved user engagement by **18%**.
- Optimized application responsiveness and ensured smooth real-time user experiences at scale, reducing average load times by **30%** across core platform modules.
- Implemented and improved **data visualization** components based on large and complex datasets, enabling stakeholders to access critical financial insights through interactive dashboards.
- Integrated **RESTful APIs** and WebSocket-based services for real-time functionality, supporting over **1 million** concurrent user connections.
- Collaborated with cross-functional teams, including designers and product managers, to define, design, and deliver innovative mobile solutions within an agile development environment.
- Contributed to code quality and continuous improvement of mobile architecture, establishing automated testing frameworks that increased test coverage by **45%**.

SKILLS

Mobile Development – React Native, JavaScript (ES6+), Redux, Expo, Mobile Performance Optimization, Scalable App Architecture.

Backend Integration – RESTful APIs, WebSockets, API Integration, Real-time Data Streams.

Programming Languages – JavaScript, Python, Java, SQL.

Data Visualization – Power BI, Tableau, DAX, R.

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git.

Databases – PostgreSQL, MySQL, Oracle.

Methodologies – Agile, Scrum, CI/CD, Production Support, Incident Response.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Real-Time Trading Insights Mobile Dashboard

- Engineered a React Native mobile application to display real-time market data and user portfolio performance, integrating with custom **RESTful APIs** and **WebSocket** streams.
- Developed interactive **data visualization** components using custom charting libraries, allowing users to analyze complex datasets with drill-down capabilities, improving data comprehension by **35%**.

- Optimized application performance for a global user base, achieving an average screen load time under **1.5 seconds** and ensuring seamless user experiences across diverse network conditions.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Supported a payments operations dashboard for a financial services client, focusing on real-time transaction-flow monitoring and operational alerting for failed payment messages.
- Automated data validation and reconciliation workflows using **Python** scripting and **SQL** queries across PostgreSQL and Oracle databases, reducing manual processing time by **25%**.
- Managed incident response and SLA adherence for production environments, contributing to a 99.9% uptime for critical financial operations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
