PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **secure software solutions** for a financial-services client, reducing critical vulnerabilities by **30%** through adherence to industry insights and governmental regulations.
- Developed **secure, high-quality production code** in Python and Java, contributing to the successful delivery of enterprise-level security features and conducting code reviews that improved overall code quality by **15%**.
- Executed threat modeling and vulnerability assessments on multiple organizational assets, identifying and mitigating security risks for external applications interfacing with internal networks, leading to a **40%** reduction in identified threats.
- Architected and deployed **cloud-native applications** on AWS, leveraging services like EC2, S3, and Lambda, to build scalable and secure solutions that met predefined functional and user requirements.
- Managed incident response and executed change-control processes for enterprise business systems, ensuring **99.9% uptime** and seamless integration across interconnected platforms via REST APIs and database flows.
- Enhanced operational visibility for a payments operations dashboard by developing **Python scripts for data pipelines** and scheduled reporting, improving transaction monitoring efficiency by **25%**.

SKILLS

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Public Cloud Concepts, IaC (Terraform, CloudFormation)

Security Concepts – IAM, Authentication, OIDC, SAML, Vulnerability Assessment, Threat Modeling, Penetration Testing

Programming Languages – Python, Java, SQL

Backend Development – Spring Boot, REST APIs, Microservices

Data & Analytics – Data Analytics AWS services (Redshift, Lake Formation), Snowflake, Databricks, Power BI, DAX, Power Query, R, Tableau

DevOps & Tools – Docker, Jenkins, Git, Jira, Splunk, Dynatrace, Linux

Enterprise Systems – ERP Integration Support, Business Systems Support, Change Management

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Secure Cloud-Native Payments Gateway (HCL Technologies)

- Architected and developed a **secure cloud-native payments gateway** on AWS, incorporating IAM, OIDC, and SAML for robust authentication and authorization of financial transactions.

- Implemented Infrastructure as Code using **Terraform** to automate the provisioning of secure AWS environments, ensuring tamper-proof and audit-defensible infrastructure for sensitive payment data.
- Integrated **Python**-based microservices for real-time transaction monitoring and anomaly detection, processing over **1 million transactions daily** with a **99.99% availability** and a **50% reduction** in manual reconciliation efforts.

Enterprise Business Systems Integration Platform (HCL Technologies)

- Designed and implemented **REST APIs** to facilitate seamless integration between core ERP modules and a financial-services operations dashboard, improving data flow efficiency by **35%**.
- Managed change-control processes for critical system configurations and supported User Acceptance Testing (UAT) across interconnected platforms, ensuring smooth post-go-live operations and minimizing business disruption.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
