PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed data integration and complex analysis for disparate systems, developing **business intelligence integration designs** and reducing data reconciliation errors by **18%**.
- Built extensible data acquisition and integration solutions using **PySpark** and **AWS Glue** to meet functional and non-functional requirements, processing over **10TB** of data weekly.
- Implemented processes to extract, transform, and distribute data from diverse sources into **AWS Data Warehousing** platforms, enhancing reporting accuracy by **22%**.
- Provided problem-solving expertise and conducted complex analysis of data for **distributed services/systems**, improving system uptime to **99.95%**.
- Delivered robust software solutions through design and technical troubleshooting of multiple components within enterprise applications, achieving a **15% reduction** in critical incident response times.
- Collaborated with cross-functional teams including Product Management and Quality Engineering to deliver secure, stable, and scalable software components, enabling **faster feature deployment** by **20%**.

SKILLS

Cloud Platforms – AWS (EMR, S3, AWS Glue, Lambda), Databricks, Oracle, PostgreSQL, MySQL, DynamoDB, RDS, Athena

Big Data & Data Warehousing – Data Integration, Data Acquisition, Data Transformation, Data Distribution, Data Modeling, Data Lake Concepts, Delta Tables, Parquet, ORC, Avro, Sequence Files

Data Processing & Pipelines – PySpark, Spark Engineering, Apache Airflow, ETL

CI/CD & DevOps – Jenkins, Git, Artifactory, Yaml, Maven, Docker, Infrastructure as Code (IaC)

Programming Languages – Java, Python, Scala, SQL

API & Services – REST APIs, Distributed Services/Systems

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Scalable Data Integration Platform (HCL Technologies)

- Engineered a scalable data integration platform using **AWS Glue** and **PySpark**, processing over **500GB** of financial transaction data daily from multiple disparate sources.
- Developed robust ETL pipelines to extract, transform, and load data into a centralized **AWS Data Warehouse**, improving data availability for operational reporting by **30%**.

- Implemented data quality checks and validation processes, reducing data anomalies in downstream analytics by **25%** and ensuring adherence to **data warehousing** best practices.

Enterprise Systems Integration & Support (HCL Technologies)

- Supported and integrated complex **ERP** modules and enterprise business systems using **Java Spring Boot** REST APIs and direct **SQL** database interactions across **PostgreSQL** and **Oracle**.
- Managed change-control processes for system configuration updates and coordinated User Acceptance Testing (UAT) for cross-system integrations, ensuring seamless post-go-live operations.
- Resolved production incidents and performed root cause analysis for enterprise applications, maintaining a **99.8%** service level agreement (SLA) adherence.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
