PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Delivered secure and high-quality production code for a financial-services operations dashboard, maintaining **99.9% uptime** for transaction processing by implementing robust error handling and monitoring.
- Designed and developed REST APIs using **Java Spring Boot** for new features on enterprise applications, integrating with core banking systems and reducing data latency by **15%**.
- Automated critical data validation and reporting tasks using **Python scripting**, reducing manual effort by **20 hours per week** and improving data accuracy for regulatory compliance.
- Executed software solutions for a large corporate environment, contributing to architecture and design artifacts for applications while ensuring design constraints were met by **software code development** and **technical troubleshooting**.
- Gathered, analyzed, and synthesized large, diverse data sets, developing visualizations and reporting using **Power BI** to continuously improve software applications, leading to a **10% reduction** in critical incidents.
- Managed change-control processes for system configuration updates and coordinated User Acceptance Testing (UAT) for **ERP and enterprise business systems**, ensuring smooth post-go-live support for interconnected platforms.

SKILLS

Backend Development – Java, Spring Boot, Python, REST APIs, Microservices

Cloud & DevOps – AWS, Docker, Jenkins, CI/CD, Linux

Databases – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing

Frontend Development – React, Angular

Data Analytics & BI – Power BI, Tableau, DAX, R, Pandas, NumPy, Scikit-learn

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Git, Splunk, Dynatrace

Financial Services Domain – Payments Operations, Transaction Monitoring, Reconciliation Workflows, Regulatory Awareness

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Real-Time Transaction Reconciliation Engine (HCL Technologies)

- Developed a high-throughput **Java Spring Boot** microservice for near real-time transaction reconciliation, processing over **1 million transactions** daily.

- Integrated with disparate financial data sources using **SQL** across PostgreSQL and Oracle, ensuring data integrity and adherence to strict **audit trail** requirements.
- Implemented comprehensive monitoring and alerting using **Splunk** and **CloudWatch**, achieving **99.95%** system availability and reducing reconciliation discrepancies by **25%**.

Executive Performance Dashboard (MSc Data Analytics)

- Designed and deployed an interactive executive KPI dashboard using **Power BI** for strategic business stakeholders, consolidating data from multiple enterprise systems.
- Developed complex **DAX measures** and optimized **Power Query** scripts for efficient data extraction, transformation, and loading (ETL), reducing report refresh times by **40%**.
- Conducted exploratory data analysis and built predictive models using **Python (Pandas, Scikit-learn)** and **R** to identify key performance drivers and forecast future trends, supporting data-driven decision-making.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
