PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Delivered production-grade **Java** and **React** full-stack solutions for the **Employee Platform**, enhancing HR technology product delivery with a **15% reduction** in critical incident response time.
- Designed and implemented secure, high-quality **REST APIs** and backend integrations, maintaining algorithms that run synchronously with enterprise systems, contributing to **operational stability** across multiple business functions.
- Developed and debugged code within a large corporate environment, executing software solutions that adhere to strict **SDLC** and **Agile/Scrum** methodologies, ensuring timely delivery of features.
- Gathered, analyzed, and synthesized large, diverse datasets, developing visualizations and reports to drive continuous improvement of software applications and systems, identifying hidden problems with **20%** accuracy.
- Contributed to a culture of **DevOps/CI-CD** by building and maintaining Jenkins pipelines and application resiliency patterns, ensuring secure and maintainable code practices with a focus on **authentication/authorization**.
- Managed application development and technical troubleshooting in **AWS** environments, deploying and operating services that support large-scale enterprise **Java** projects and microservices architecture.

SKILLS

Core Development – Java, Spring Boot, REST APIs, Microservices, SQL, Linux, Git, Jenkins

Frontend Development – React, JavaScript, TypeScript, UI Development

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, CI/CD, Spinnaker

Data & Analytics – Data Analysis, Data Visualisation, Power BI, Tableau, R, Python (Pandas, NumPy)

Methodologies & Practices – SDLC, Agile/Scrum, DevOps, Application Resiliency, Security Best Practices

Enterprise Systems – ERP Integration Support, Business Systems Support, Change Management

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

HR Technology Product Suite Modernization (JPMorganChase)

- Engineered a **full-stack** application suite for the **Employee Platform**, integrating **Java Spring Boot** microservices with a **React** frontend to deliver new HR technology products.
- Implemented robust **API development (REST)** and **database querying (SQL)** patterns using **PostgreSQL**, ensuring secure and scalable backend integrations for **10,000+** employee records.

- Deployed and managed services on **AWS** utilizing **Docker** and **Kubernetes**, establishing **CI/CD** pipelines via **Jenkins** to achieve **99.95%** uptime and support **Agile/Scrum** sprints.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Developed and maintained a **payments operations dashboard** for a financial services client, focusing on **transaction monitoring** and operational alerting for failed payment messages.
- Automated data extraction and reporting using **Python** scripts and complex **SQL** queries across **PostgreSQL** and **Oracle**, reducing manual reconciliation efforts by **30%**.
- Managed incident response and SLA adherence in production environments, ensuring audit trails and **GDPR** awareness for sensitive financial data processing.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
