PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Architected and developed secure, high-quality Java solutions using **Spring Boot**, enhancing functionality for internal enterprise applications and reducing system synchronization errors by **18%**.
- Designed and implemented robust REST APIs within the Spring framework, enabling seamless integration with existing enterprise systems and improving data flow efficiency by **22%**.
- Automated recurring operational issues in a large corporate environment by developing Python scripts, which decreased manual intervention time by **30%** and improved software stability.
- Analyzed and enhanced existing enterprise application codebases, building new services and APIs to support board meeting preparation tools and AI integration features.
- Managed the full Software Development Life Cycle for critical internal applications, ensuring adherence to agile methodologies, CI/CD practices, and application resiliency standards.
- Transformed data into actionable insights for senior leaders by developing interactive dashboards and performing data analysis, directly supporting strategic decision-making for board presentations.

SKILLS

Backend Development – Java, Spring Boot, Spring Framework, REST APIs, Microservices, Python, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, CI/CD, Git, Linux, Shell Scripting

Databases – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing

Data Analytics & BI – Power BI, DAX, Power Query, Tableau, R, pandas, NumPy, scikit-learn, Data Modelling

Methodologies & Practices – Agile, Scrum, Software Development Life Cycle (SDLC), System Design, Application Development, Testing, Stability, Incident Response, Change Management, GDPR Awareness

Frontend Development – ReactJS, Angular, Web Development

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

AI-Enhanced Board Meeting Preparation Platform (HCL Technologies)

- Developed a secure, scalable Java backend using **Spring Boot** and **PostgreSQL** to manage meeting documents, attendee data, and AI-generated summaries, processing over **10,000** documents monthly.
- Integrated **AI models** via REST APIs for automated document summarization and sentiment analysis, reducing preparation time for senior leaders by an average of **40%**.

- Implemented robust CI/CD pipelines with **Jenkins** and deployed containerized applications using **Docker** on **AWS EC2**, ensuring high availability and rapid iteration cycles.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Engineered a **Java Spring Boot** application to monitor high-volume payment transaction flows, flagging exceptions and providing real-time operational alerts with **99.95%** uptime.
- Developed **SQL** queries across **PostgreSQL** and **Oracle** for data validation and reconciliation, ensuring data integrity for critical financial operations.
- Collaborated with business analysts to gather requirements and support user acceptance testing for a payments operations dashboard, improving visibility into transaction processing status.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
