## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India** **09/2021 – 01/2025 (3.5 Years)**

---

- Developed native Android applications using **Kotlin** and **Java**, implementing core features for a mobile banking client and achieving **99.8% crash-free sessions**.
- Built and maintained reusable **Android SDK** and framework components, enhancing modularity and reducing feature integration time by **15%** across multiple projects.
- Implemented **Android APIs** and platform features to support secure transaction display and user authentication, contributing to a **10% increase** in mobile user engagement.
- Authored comprehensive **unit and instrumentation tests** for Android components, increasing code coverage by **40%** and reducing post-release defects by **20%**.
- Collaborated with product managers and cross-functional mobile teams to define requirements and participate in architectural decisions for new Android platform capabilities, ensuring alignment with product roadmaps.
- Integrated **AI-assisted development tools**, including GitHub Copilot, to accelerate code generation and debugging, improving developer productivity by an estimated **12%**.

## SKILLS

**Mobile Development** – Android, Kotlin, Java, Android SDK, Android Framework, REST APIs, Git

**Testing & QA** – Unit Testing, Instrumentation Testing, Test Automation

**Tools & Platforms** – GitHub Copilot, Jenkins, Jira, Confluence, AWS

**Architecture & Design** – Modular Design, Reusable Components, API Design

**Methodologies** – Agile, Scrum

**Data & Analytics** – Power BI, DAX, SQL, Data Modelling

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin** **02/2026**

---

**BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India** **01/2021**

---

## PROJECTS

**Modular Android Payments SDK for Financial Services**

- Engineered a **modular Android SDK** using **Kotlin** and **Java** for secure processing of financial transactions, designed for integration into partner applications.
- Implemented **Android APIs** for transaction initiation, status updates, and secure data handling, adhering to strict security protocols and achieving **zero data breaches** during development.
- Developed extensive **unit and instrumentation tests** for all SDK components, ensuring **99.9% test coverage** and enabling seamless updates with minimal regression.

### **HCL Technologies - Financial Services Operations Dashboard Enhancement**

- Enhanced a **payments operations dashboard** for a financial client by developing new **REST APIs** in **Java Spring Boot** to ingest and display real-time transaction monitoring data.
- Automated report generation for reconciliation workflows using **Python scripting** and **SQL queries** across PostgreSQL and Oracle databases, reducing manual effort by **30%**.
- Managed change-control processes for production deployments via **Jenkins pipelines**, ensuring adherence to audit trails and regulatory awareness in the production environment.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
