PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **Python** scripts for automating data ingestion and ETL processes, reducing manual data processing time by **40%**.
- Developed and maintained **Java Spring Boot** microservices and REST APIs, enhancing system functionality and supporting a **15%** increase in transaction throughput.
- Managed production support for enterprise applications, resolving P1/P2 incidents within SLA targets using **Splunk** and **Dynatrace** for root cause analysis, ensuring **99.95%** uptime.
- Executed security vulnerability assessments and threat modelling across multiple applications by analyzing **Python** code and system architecture, identifying and mitigating over **50** potential security risks.
- Integrated enterprise business systems using **REST APIs** and direct database connections (**PostgreSQL**, **Oracle**), facilitating seamless data flow and supporting critical business operations.
- Collaborated with business stakeholders to translate security needs into actionable technical requirements, recommending and implementing security modifications that reduced system vulnerabilities by **20%**.

SKILLS

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Public Cloud Environment Concepts, Cloud-Native Applications, IAM, Authentication, OIDC, SAML.

Languages & Frameworks – Python, Java, Spring Boot, Node.js, NestJS, Rust, Flask, FastAPI, React, Angular.

Databases & Data Analytics – PostgreSQL, MySQL, Oracle, SQL, Data Warehousing, Redshift, Lake Formation, Snowflake, Databricks, DAX, Power BI, Tableau, R, pandas, NumPy, scikit-learn.

DevOps & CI/CD – Jenkins, Git, Docker, Linux Shell Scripting, Terraform, CloudFormation.

Security & Operations – Vulnerability Assessment, Penetration Testing, Threat Modelling, Incident Response, Change Management, GDPR Awareness, Audit Trails, Production Support, Observability (Splunk, Dynatrace).

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Secure Cloud-Native Application Platform

- Architected and deployed a **multi-region cloud-native application** on **AWS** utilizing **Kubernetes** for container orchestration and **Terraform** for Infrastructure as Code, achieving **99.99%** availability.
- Implemented robust security controls including **IAM** policies, **OIDC**-based authentication flows, and regular vulnerability scanning with **Python** scripts integrated into **Jenkins** CI/CD pipelines.

- Developed **REST APIs** using **NestJS** and a **PostgreSQL** backend to manage application configurations and security policies, processing over **10,000** requests per day with sub-second latency.
- Conducted **penetration testing** and **threat modelling** exercises on the platform, identifying and remediating critical vulnerabilities that enhanced overall system security posture by **30%**.

Financial Services Transaction Monitoring Dashboard

- Developed and supported a **payments operations dashboard** for a financial services client, enabling real-time **transaction monitoring** and alerting on failed payment messages.
- Automated data extraction and validation using **Python** and **SQL** against **Oracle** and **PostgreSQL** databases, ensuring data integrity for reconciliation workflows.
- Managed production incidents and change requests within a regulated environment, adhering to strict SLAs and maintaining comprehensive **audit trails** and **GDPR** compliance.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
