+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

## PROFESSIONAL EXPERIENCE

**SOFTWARE ENGINEER – HCL Technologies | Chennai, India** **09/2021 – 01/2025 (3.5 Years)**

---

- Engineered scalable data pipelines using **PySpark** on **AWS EMR**, processing over 10TB of disparate data daily to support business intelligence integration designs, reducing data latency by **40%**.
- Developed and deployed extensible data acquisition solutions on **AWS Glue** and **Lambda**, integrating data from diverse sources including **Delta Tables** and **Parquet** files, meeting stringent non-functional requirements.
- Managed production support for enterprise applications on **AWS**, resolving P1/P2 incidents via **Splunk** and **Dynatrace**, maintaining **99.95%** service availability and SLA adherence.
- Implemented CI/CD pipelines using **Jenkins**, **Git**, and **Artifactory** for cloud deployments, automating build, test, and deployment processes for distributed services, accelerating release cycles by **30%**.
- Designed and implemented REST APIs using **Java Spring Boot** to integrate enterprise business systems and support data flows across **PostgreSQL** and **Oracle** databases, facilitating cross-system operations.
- Collaborated with cross-functional teams, including Product Management and System Admin Teams, to deliver software components for state-of-the-art technology products, ensuring secure, stable, and scalable solutions.

## SKILLS

**Cloud Platforms** – AWS (EMR, S3, Glue, Lambda, CloudWatch), Docker

**Data Engineering & Big Data** – Spark (PySpark/Scala), Data Warehousing, Data Modeling, Data Lake, Databricks, Apache Airflow, Athena, Delta Tables, Parquet, ORC, Avro

**Programming Languages** – Java (Spring Boot), Python, SQL, Scala

**CI/CD & DevOps** – Jenkins, Git, Artifactory, Yaml, Maven, Infrastructure as Code (Terraform/CloudFormation)

**Databases** – PostgreSQL, Oracle, MySQL, RDS, DynamoDB, NoSQL

**Observability & Monitoring** – Splunk, Dynatrace, CloudWatch

**Development Tools** – Jira, Confluence, GitHub Copilot

## EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin** **02/2026**

---

**BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India** **01/2021**

---

## PROJECTS

**Scalable Data Lakehouse for Financial Analytics (HCL Technologies)**

- Architected and built a data lakehouse on **AWS S3** using **Spark** and **Databricks**, integrating data from transactional databases and APIs to create a unified source for analytics.
- Implemented data pipelines with **PySpark** and **AWS Glue** to ingest, transform, and load data from various formats including **Delta Tables** and **Parquet**, ensuring data quality and consistency for over 5 million daily

transactions.

- Developed **REST APIs** using **Java Spring Boot** to expose curated datasets to downstream BI tools and client applications, enabling real-time reporting and reducing ad-hoc query load by **60%**.

#### **Automated Transaction Monitoring & Reconciliation System**

- Developed a monitoring system using **Python** and **SQL** to track payment transaction flows and identify discrepancies in near real-time, supporting a financial-services dashboard.
- Configured alerts and reporting mechanisms integrated with **Splunk** for operational teams, achieving a **25%** reduction in manual reconciliation effort and improving anomaly detection accuracy.

### **ACHIEVEMENTS & CERTIFICATIONS**

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
