PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Designed and developed secure, high-quality production code for a financial services platform, maintaining algorithms that run synchronously with core systems, achieving **99.95% uptime**.
- Contributed to the architecture and design of enterprise applications, producing artifacts that ensured design constraints were met by software code development, supporting **15+ key services**.
- Gathered and analyzed large, diverse datasets, synthesizing findings into actionable insights and visualizations for reporting to continuously improve software applications, leading to a **20% reduction in critical bugs**.
- Executed software solutions encompassing design, development, and technical troubleshooting for enterprise business systems, resolving an average of **10 P1/P2 incidents per week**.
- Developed and maintained REST APIs using **Java Spring Boot** for cross-system integrations, facilitating seamless data flow between ERP modules and operational platforms, reducing integration latency by **30%**.
- Participated in agile methodologies, contributing to CI/CD pipelines and application resiliency efforts, ensuring **100% adherence to security protocols** and improving deployment success rates by **18%**.

SKILLS

Backend Development – Java, Spring Boot, Python, REST APIs, Microservices

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Databases – SQL, PostgreSQL, MySQL, Oracle, Database Querying

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

Methodologies – Agile, Scrum, CI/CD, SDLC, Incident Response, Change Management

Observability – Splunk, Dynatrace

Enterprise Systems – ERP Support, Business Systems Integration

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Real-Time Payments Transaction Monitoring Dashboard (HCL Technologies)

- Developed a comprehensive **payments operations dashboard** to monitor transaction flows and operational alerting for a major financial services client, processing over **1 million transactions daily**.
- Implemented Python scripts for data pipeline automation and ETL processes to aggregate transaction data from disparate sources into a central PostgreSQL data warehouse, reducing data ingestion time by **40%**.

- Engineered **Java Spring Boot** microservices to expose transaction status via REST APIs, enabling real-time updates and integration with client-side reporting tools, achieving sub-second response times.

Executive KPI and Performance Analytics Platform (MSc Data Analytics Project)

- Designed and deployed interactive **Power BI dashboards** visualizing key performance indicators derived from large, diverse datasets for executive stakeholders, enabling data-driven decision-making.
- Developed complex **DAX measures** and performed data modelling within Power BI to consolidate information from multiple sources, improving report accuracy and reducing manual data manipulation by **75%**.
- Utilized **Power Query** for robust ETL processes, transforming and cleansing raw data to prepare it for analysis and visualization, ensuring data integrity for critical business metrics.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
