PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Resolved critical customer-reported issues for Keeper's cybersecurity platform, achieving a **98% first-contact resolution rate** by analyzing logs from **Linux**, **Windows**, and **Mac OS X** environments.
- Automated recurring support tasks by developing **Python** scripts, reducing average case handling time by **15%** and enabling proactive monitoring of customer deployments.
- Managed and tracked over 500 technical support cases weekly using **Jira**, ensuring timely resolution and communicating status updates to engineering and customer success teams, maintaining adherence to SLAs.
- Configured and supported **Active Directory** integrations and **Single Sign On (SSO)** environments for enterprise clients, facilitating seamless user access to Keeper's PAM solution.
- Provided technical guidance and assisted with the installation and deployment of Keeper's software products across diverse **prem/cloud/hybrid environments**, resolving complex configuration challenges.
- Analyzed and documented product defects and customer-reported problems, collaborating with **QA** and **engineering** teams to prioritize fixes and incorporate feedback into the product release cycle, leading to a **10% reduction in recurring issues**.

SKILLS

Operating Systems – Linux, Windows, Mac OS X

Scripting & Automation – Python, PowerShell, Shell Scripting

Identity & Access Management – Single Sign On (SSO), Active Directory, LDAP, Privileged Access Management (PAM)

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Hybrid Cloud Environments

Networking & Security – Firewalls, Authentication Protocols

Ticketing & Collaboration – Jira, Confluence

Databases – SQL (PostgreSQL, MySQL, Oracle)

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Tier 3 Cybersecurity Platform Support & Resolution Analysis (HCL Technologies)

- Developed comprehensive troubleshooting guides and diagnostic tools for Keeper's cybersecurity suite, reducing escalation rates by **20%**.
- Provided in-depth technical support for complex customer environments, including **Linux** server administration, **Active Directory** integration, and **firewall** configuration issues.

- Analyzed support case trends to identify systemic product issues, feeding detailed reports to engineering that influenced the prioritization of bug fixes and feature enhancements, resulting in a **15% decrease in critical incidents**.

Financial Transaction Monitoring Dashboard Enhancement (HCL Technologies)

- Implemented real-time alerting for failed payment messages within a high-volume financial-services dashboard, improving operational response times by **30%**.
- Refactored SQL queries and optimized data retrieval processes for transaction monitoring, reducing report generation time by **25%**.
- Collaborated with business analysts to gather requirements for new reconciliation workflow features, ensuring adherence to regulatory awareness and audit trail requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
