PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Analyzed and evaluated **direct lending opportunities** across EMEA, developing investment themes and conducting macro/micro data analysis to inform decisions, contributing to KKR Real Estate Credit's growth.
- Managed the end-to-end due diligence process for commercial loans, coordinating internally and externally with stakeholders to assess risk and prepare comprehensive **investment memorandums**.
- Developed sophisticated **financial models** in Excel and Python for commercial loan underwriting, projecting cash flows and debt service coverage ratios to assess creditworthiness for diverse asset classes.
- Supported ongoing loan **asset management** and reporting requirements by extracting and analyzing portfolio data, ensuring compliance with investment mandates and generating performance summaries.
- Automated data extraction and reporting for transaction monitoring using **Python scripting**, reducing manual effort by **40%** and improving the timeliness of financial operations updates.
- Enhanced production system reliability by resolving P1/P2 incidents within strict SLAs using **Splunk and Dynatrace** for root cause analysis, ensuring **99.95%** uptime for critical financial services applications.

SKILLS

Financial Analysis – Credit Underwriting, Financial Modelling, Investment Analysis, Due Diligence, Asset Management, Risk Assessment, Commercial Real Estate

Programming & Scripting – Python (pandas, NumPy, scikit-learn), SQL (PostgreSQL, MySQL, Oracle), Java (Spring Boot)

Data Visualization & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Business Intelligence

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux

Development Tools & Methodologies – Git, Jenkins, Jira, Confluence, Agile/Scrum, REST APIs

Operations & Support – Production Support, Incident Response, Change Management, Monitoring (Splunk, Dynatrace)

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Real Estate Credit Portfolio Analytics Platform

- Developed a comprehensive analytics platform using **Python and Power BI** to model and forecast performance for a portfolio of 50+ commercial real estate loans, enabling proactive risk identification.
- Integrated data from diverse sources including loan origination systems (SQL) and market data feeds, constructing a robust data model in **Power BI** that supported drill-down analysis from portfolio level to

individual loan assets.

- Automated the generation of monthly performance reports and KPI dashboards, reducing reporting time by **60%** and providing investment committees with near real-time insights into portfolio health and emerging trends.

Financial Transaction Monitoring Dashboard

- Engineered a Java Spring Boot microservice to ingest and process high-volume financial transaction messages, performing real-time validation and flagging exceptions for operational review.
- Implemented robust alerting mechanisms using **Dynatrace**, reducing critical incident response times by an average of **30%** for payment processing failures.
- Collaborated with business analysts to define requirements for transaction flow monitoring, ensuring audit trail integrity and adherence to regulatory awareness standards for production environments.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
