PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Resolved over **500+ critical partner issues** by performing root cause analysis using **SQL queries** and **log investigation**, adhering to strict SLA targets and reducing average resolution time by **18%**.
- Implemented **safe, scoped code changes** and configuration updates to resolve integration failures, successfully deploying **15+ hotfixes** through Jenkins pipelines and minimizing production downtime.
- Triaged and prioritized incoming partner issues from **Intercom**, effectively translating technical complexities for escalation to the engineering team via **Linear**, ensuring **99.9%** of issues were addressed within defined SLAs.
- Investigated and resolved complex data mismatches and edge cases in production environments by writing **PostgreSQL** queries and analyzing system logs, validating data integrity for **tens of thousands of employees' benefits data**.
- Developed and maintained internal documentation and runbooks, standardizing resolution procedures for common issues and contributing to a **25% reduction** in repeat inquiries for recurring problems.
- Collaborated with FDE teams to manage support escalations throughout the partner lifecycle, providing clear, proactive status updates and setting realistic expectations for resolution timelines, maintaining high partner satisfaction.

SKILLS

Core Technologies – TypeScript, Node.js, .NET, PostgreSQL, REST APIs, OAuth, API Keys, Webhooks

Observability & Debugging – Datadog, Grafana, CloudWatch, Sentry, Log Analysis, Metrics, Traces, Production Debugging

Databases – SQL, PostgreSQL, MySQL, Oracle, Data Validation, Schema Changes

Development Practices – CI/CD, Jenkins, Git, Code Reviews, Agile/Scrum, Docker, Linux Shell Scripting

Tools & Platforms – Intercom, Linear, Jira, Confluence, AWS (EC2/S3/Lambda/CloudWatch)

Domain Knowledge – B2B SaaS Support, API-First Companies, Embedded Integrations, Regulated Industries, Data Accuracy, Audit Trails

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Integrated Benefits Platform Reliability Dashboard (HCL Technologies)

- Developed a comprehensive **reliability dashboard** for a financial-services operations platform, aggregating **Splunk** and **Dynatrace** metrics to provide real-time visibility into transaction processing health.

- Automated the generation of **daily operational reports** using Python scripts, summarizing key performance indicators and highlighting anomalies in payment message flows, reducing manual reporting effort by **40%**.
- Implemented automated alerting for critical failures in reconciliation workflows, ensuring **99.95% uptime** for core transaction monitoring services and enabling proactive incident response.

Kota Embedded Integration Health Monitor

- Engineered a proactive monitoring system for **Kota's embedded integrations**, correlating **PostgreSQL** data states with **REST API** call logs to predict potential failures before partner impact.
- Built a **Node.js**-based diagnostic tool that simulates partner API interactions and queries internal databases, enabling faster reproduction and root cause analysis of integration issues with **95% accuracy**.
- Created automated escalation pathways to **Linear** for critical integration faults, including detailed logs and reproduction steps, reducing the time-to-escalation for P1 incidents by **30%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
