PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Deployed containerized Hugging Face models as **FastAPI** microservices on **Kubernetes**, ensuring **GPU compatibility** and optimizing memory provisioning for large computer vision models, reducing inference latency by **15%**.
- Automated the integration with existing labelling workflows by developing Python scripts that processed and validated annotation data, increasing data pipeline throughput by **30%** and reducing manual processing time.
- Managed and optimized **AWS EC2 GPU instances** and associated NVIDIA drivers, resolving dependency conflicts and ensuring seamless operation for machine learning model training and deployment, achieving **99.9%** uptime for ML workloads.
- Contributed to the development of cloud-native solutions on **AWS**, building and maintaining scalable backend services and implementing robust CI/CD pipelines with **Jenkins** that improved deployment frequency by **2x**.
- Refactored and maintained **PostgreSQL** database schemas and optimized complex SQL queries for data analytics pipelines, improving data retrieval performance for analytical reports by an average of **22%**.
- Collaborated with data science and engineering teams to build experimental computer vision pipelines, integrating model outputs into existing systems and adhering to strict code quality standards and security processes, successfully delivering **3 major feature releases**.

SKILLS

MLOps & Deployment – Containerization (Docker), Kubernetes, Hugging Face Models, FastAPI, CI/CD (Jenkins), AWS EC2 GPU Instances, CUDA, NVIDIA Drivers

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Linux, Shell Scripting, Docker

Programming & Scripting – Python, Java, Spring Boot, SQL, R

Data & Analytics – Data Modelling, Data Warehousing, Power BI, DAX, Power Query, Tableau, pandas, NumPy, scikit-learn

Development Practices – REST APIs, Agile/Scrum, Git, Code Reviews, Unit Testing, Integration Testing, Dependency Management

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Computer Vision Analytics Pipeline for Underwriting (HCL Technologies)

- Architected and implemented a containerized API service using **FastAPI** to serve predictions from a trained computer vision model (e.g., image classification for risk assessment), deploying it on a **managed Kubernetes**

cluster.

- Configured and managed **AWS EC2 GPU instances**, ensuring correct **CUDA** and **NVIDIA** driver installations, and optimizing memory provisioning for large-scale model inference, processing over **10,000 images daily**.
- Developed Python scripts for data ingestion and pre-processing, integrating with existing labelling workflows and ensuring data quality for model retraining, reducing data preparation time by **40%**.

Real-time Transaction Monitoring Dashboard (HCL Technologies)

- Enhanced a payments operations dashboard by developing Java Spring Boot services to monitor transaction flows and provide real-time operational alerting for failed payment messages, improving issue detection by **25%**.
- Wrote complex **SQL** queries against **PostgreSQL** and **Oracle** databases to support transaction reconciliation workflows and generate audit trail reports, ensuring data integrity for financial operations.
- Managed production support activities for the financial-services client, responding to P1/P2 incidents using **Splunk** and **Dynatrace** for log analysis and performance monitoring, maintaining **99.95%** service availability.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
