PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Architected and deployed **Python**-based agent orchestration frameworks, enabling autonomous AI coding agents to execute complex Marsh use cases and reducing manual coding effort by **30%**.
- Developed and productionized **TypeScript** microservices for a Model Context Protocol (MCP) tooling suite, managing **100,000+** daily requests for LLM context retrieval and agent state.
- Implemented **infrastructure-as-code** using **Crossplane** across AWS and Azure, automating the deployment of **Kubernetes**-based AI environments and reducing provisioning time by **75%**.
- Managed rapid proofs-of-concept for emerging AI technologies, evaluating new LLM approaches and memory systems, leading to the successful adoption of **Retrieval-Augmented Generation (RAG)** for 5 enterprise applications.
- Configured and extended **AI coding assistants** like GitHub Copilot and Cursor, integrating custom tools and defining standards that improved developer productivity by an estimated **20%**.
- Developed **guardrails and safety** frameworks, including content filtering and prompt injection defence mechanisms, ensuring secure and reliable AI system operation with a **99.9%** compliance rate.

SKILLS

AI Engineering – LLM Integration, Prompt Engineering, Retrieval-Augmented Generation (RAG), Agent Frameworks, Function Calling, Model Context Protocol (MCP), AI Safety, Guardrails.

Programming Languages – Python, TypeScript, Rust, Java, SQL.

Cloud Platforms & IaC – AWS, Azure, GCP, Crossplane, Terraform, Kubernetes, Docker.

MLOps & Observability – CI/CD, Jenkins, Git, Splunk, Dynatrace, Logging, Monitoring.

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, R, pandas, NumPy, scikit-learn.

Enterprise Systems – ERP Support, REST APIs, Java Spring Boot, PostgreSQL, MySQL, Oracle.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Marsh AI Agent Orchestration Platform (HCL Technologies)

- Designed and built a scalable agent orchestration platform using **Python** and **FastAPI** to manage multiple autonomous AI coding agents, processing over **50,000** code generation requests weekly.
- Integrated **Model Context Protocol (MCP)** to provide agents with real-time access to project documentation and code repositories, improving code relevance and reducing agent drift by **40%**.

- Implemented robust logging and monitoring with **Splunk** and **Dynatrace**, achieving **99.95%** uptime for the agent execution environment and enabling rapid incident response.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Developed and maintained a critical payments operations dashboard, enhancing transaction monitoring capabilities for a financial-services client, processing over **1 million** transactions daily.
- Automated anomaly detection and alerting for failed payment messages using **Python** scripts and **SQL** queries against PostgreSQL, reducing manual review workload by **50%**.
- Managed change control processes and collaborated with business analysts for UAT support, ensuring smooth deployment of updates to operational alerting systems within strict regulatory awareness.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
