+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and deployed **NestJS backend services**, supporting data access and computation, reducing API latency by **18%** for insurance risk analytics.
- Engineered **React components** for data-heavy UIs, integrating complex visualizations that clarified actuarial insights and increased user engagement by **22%**.
- Automated the generation of **scalable data pipelines** using Python and SQL against Databricks, processing over **10TB** of insurance policy data weekly for risk modelling.
- Integrated **AI-enabled development tools**, such as code generation assistants, into the CI/CD workflow, accelerating feature delivery by **15%** and improving code quality.
- Self-sourced and validated data from **Databricks lakehouse patterns**, writing complex **SQL queries** to support upstream structure analysis and ensure data quality for risk management initiatives.
- Implemented end-to-end features for a digital client experience platform, encompassing data consumption, API logic, and client-facing UI development with high autonomy, successfully launching **3 core features** ahead of schedule.

SKILLS

Backend Development – TypeScript, Node.js, NestJS, Java, Spring Boot, REST APIs

Frontend Development – React, JavaScript, HTML, CSS, Data Visualisation Libraries

Data Engineering & Analytics – SQL, Databricks, PostgreSQL, Python (pandas, NumPy, scikit-learn), Data Warehousing, ETL

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

AI & Machine Learning – Applied AI, AI-enabled Development, Statistical Analysis, Regression, ML Fundamentals

Domain & Methodologies – Insurance Risk Management, Actuarial Computation, Agile/Scrum, Production Support, Change Management

BI & Visualization – Power BI, DAX, Tableau, Power Query

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

AI-Powered Digital Client Experience Platform (Marsh)

- Architected and built a full-stack application using **TypeScript, NestJS, and React** to deliver a digital client experience platform for insurance renewals, serving **500+ users**.

- Developed scalable **backend APIs** and curated data layers, processing terabytes of policy and risk data from a **Databricks lakehouse**, enabling precise exposure analysis and loss projections.
- Implemented sophisticated front-end mathematical computations using **React** and data visualization libraries, reducing the time for complex actuarial calculations by **30%**.
- Integrated **AI tools** for automated testing and code generation, increasing developer productivity by **20%** and ensuring high-quality, secure code delivery.
- Managed data consumption and querying, writing complex **SQL** to self-source data and validate upstream structures, contributing to a **99.9%** data accuracy rate for risk reporting.

Payments Operations Dashboard Enhancements (HCL Technologies)

- Enhanced production support for a financial-services client's payments operations dashboard, implementing **transaction monitoring** and operational alerting for failed payment messages.
- Developed **Python automation scripts** to streamline data validation and ETL processes for reconciliation workflows, reducing manual effort by **40%**.
- Contributed to feature development in **Java Spring Boot**, building REST APIs to integrate with enterprise business systems and improve data flow for reporting.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
