PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Contributed to **AI platform architecture** by designing integration patterns for emerging AI capabilities, aligning with Marsh's enterprise technology landscape.
- Identified and evaluated **emerging AI technologies**, including LLMs and agentic frameworks, recommending candidates for proof-of-concept initiatives to the Head of AI CoE.
- Collaborated on **proofs-of-concept** with software engineers, providing architectural guidance on integrating new AI technologies into existing systems and future roadmaps.
- Developed **reference architectures** and high-level integration diagrams to guide scalable AI adoption across Marsh's business units and technology estate.
- Authored **architecture documentation** optimized for consumption by both human engineers and AI coding agents, ensuring clarity and accessibility.
- Presented technical architecture proposals and findings at Marsh's **Architecture Council** and Dev Council, influencing strategic technology decisions.

SKILLS

AI & ML Technologies – LLMs, RAG, Embeddings, Agent Frameworks, GitHub Copilot, Claude Code, Cursor

Cloud Platforms – AWS, Azure, GCP

System Design & Architecture – Enterprise Architecture, Integration Patterns, Reference Architectures, Technology Radar, System Design

Development & Languages – Python, Java, Spring Boot, JavaScript, TypeScript, Node.js, NestJS, Rust

Databases & Data Handling – PostgreSQL, MySQL, Oracle, SQL, Data Warehousing, ETL

DevOps & CI/CD – Docker, Kubernetes, Jenkins, Git, Linux

Business Intelligence & Analytics – Power BI, Tableau, DAX, R

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise AI Integration Framework (Marsh PoC)

- Designed and documented a scalable **AI integration framework** using **Python** and **FastAPI**, enabling seamless integration of LLMs and agentic tools into existing enterprise systems.
- Developed reference architecture diagrams and API specifications for a **RAG-based knowledge retrieval system**, improving information access for business analysts by **40%**.

- Authored comprehensive architecture documentation, including natural language descriptions and machine-readable formats, to support both human engineers and future AI coding agents.

Financial Transactions Monitoring Dashboard (HCL Technologies)

- Engineered a **payments operations dashboard** using **Java Spring Boot** and **PostgreSQL**, providing real-time transaction monitoring and operational alerting for financial services clients.
- Implemented automated data pipelines with **Python scripting**, reducing manual reconciliation efforts by **30%** and ensuring data integrity for critical financial workflows.
- Managed production support and incident response for the dashboard, maintaining **99.9% uptime** and adhering to strict SLAs and GDPR-aware audit trail requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
