

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Designed and implemented scalable, cloud-native microservices for a next-generation experimentation platform, enhancing data-driven decision-making capabilities for enterprise clients.
- Developed and enhanced backend systems and RESTful APIs deployed on **AWS**, supporting increased data volumes and user demand for analytics applications, achieving **99.95%** uptime.
- Contributed to the modernization of web-based data and analytics applications by refactoring existing services and applying modern architectural patterns, improving performance by **30%**.
- Participated in design and code reviews, applying best engineering practices including **clean code** and automated testing, reducing production defects by **15%**.
- Collaborated with Product Management, QA, and Data Science teams to translate functional requirements into scalable technical solutions, ensuring alignment with business goals and delivering enterprise-grade products.
- Supported operational excellence by contributing to service-based architectures and cloud scalability efforts, integrating with **Databricks** for advanced analytics workloads.

SKILLS

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Azure, Docker, Kubernetes

Backend Development – Java, Spring Boot, Python, REST APIs, Microservices, NestJS

Data & Analytics – Databricks, Spark (PySpark), SQL (PostgreSQL, MySQL, Oracle), Data Warehousing, Power BI, Tableau, DAX, Power Query

DevOps & CI/CD – Jenkins, Git, CloudWatch, Splunk, Dynatrace

Methodologies & Tools – Agile/Scrum, Jira, Confluence, Linux, Shell Scripting

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Mastercard Business Experimentation Platform (AWS)

- Architected and developed a cloud-native experimentation platform using **Java Spring Boot** microservices deployed on **AWS**, enabling A/B testing and data-driven decision-making for enterprise clients.
- Integrated **Databricks** for processing large-scale analytical workloads and generating insights, directly feeding into the platform's experimentation capabilities and improving test analysis speed by **40%**.
- Designed and implemented robust **RESTful APIs** for seamless integration with existing Mastercard systems, supporting over **1 million** daily transactions and enhancing user experience through faster iteration cycles.

Financial Services Transaction Monitoring Dashboard (HCL)

- Developed and maintained a critical payments operations dashboard for a financial-services client, focusing on real-time transaction monitoring and operational alerting for failed payment messages.
- Implemented automated data pipelines using **Python** and **SQL** across PostgreSQL and Oracle databases to process and validate financial transaction data, ensuring **99.9%** data integrity.
- Managed production support and incident response for the dashboard in a regulated environment, adhering to strict SLAs and audit trail requirements, contributing to a **25%** reduction in critical incidents.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
