PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and shipped **complete feature areas** for large-scale solutions, integrating design and architecture, resulting in a **15% reduction** in critical bugs post-release.
- Owned and delivered end-to-end feature development for a **payments operations dashboard**, including design, implementation, and long-term support, maintaining **99.95% uptime**.
- Contributed to improving development practices by sharing insights and best practices on **RESTful API development** and **secure coding**, influencing direction across related systems.
- Mentored and coached **two junior engineers** on effective debugging strategies and efficient code writing, accelerating their onboarding by **20%**.
- Wrote clean, maintainable code with an emphasis on quality and performance for **Java Spring Boot microservices**, achieving a **30% improvement** in average response times.
- Collaborated with program managers and designers to deliver sets of features, iterating based on **qualitative and quantitative feedback** to enhance customer experience, leading to a **10% increase** in user satisfaction scores.

SKILLS

Languages – Java, Python, SQL, TypeScript, C#

Frameworks & Libraries – Spring Boot, Node.js, .NET

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Power BI, Tableau, Splunk, Dynatrace, Jira, Confluence, Linux

Methodologies – Agile/Scrum, RESTful APIs, Object-Oriented Design, CI/CD

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Scalable Real-Time Analytics Platform (HCL Technologies)

- Engineered a **real-time transaction monitoring system** for a financial-services client, processing over **1 million transactions daily** with sub-second latency.
- Developed **Python-based ETL pipelines** to ingest and transform data from disparate sources into a centralized **PostgreSQL data warehouse**, reducing data processing time by **40%**.

- Built interactive **Power BI dashboards** visualizing key performance indicators for transaction success rates and reconciliation discrepancies, enabling faster operational decision-making and achieving a **25% reduction** in manual reporting effort.

Enterprise Business Systems Integration Layer

- Designed and implemented **RESTful APIs** to facilitate seamless data flow between the core **ERP system** and downstream operational platforms, improving data consistency across interconnected systems.
- Managed change-control processes for system configuration updates and coordinated User Acceptance Testing (UAT) for **5 major system integration** releases, ensuring smooth post-go-live operations.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
