PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented new features for the Windows software update client, enhancing discovery and installation reliability by **15%** through iterative development cycles.
- Collaborated with cross-functional teams to integrate ML/AI models into the update pipeline, improving model deployment efficiency by **20%** within a quarterly planning framework.
- Addressed critical security vulnerabilities in the update stack by architecting resilient components, reducing exposure risk by an estimated **30%**.
- Monitored monthly retail releases of Windows updates, diagnosing and mitigating issues to maintain **99.9%** uptime and customer satisfaction.
- Developed Python scripts for automating data validation and ETL processes, streamlining data ingestion for ML model training and reducing manual effort by **40 hours** per month.
- Managed change control processes for enterprise business systems, coordinating UAT and post-go-live support to ensure seamless integration across interconnected platforms.

SKILLS

Programming Languages – Java, Python, C++, C#, JavaScript

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Backend Development – Spring Boot, REST APIs, FastAPI

Databases – PostgreSQL, MySQL, Oracle, SQL

Observability & Monitoring – Splunk, Dynatrace

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn

Operating Systems & Deployment – Windows, Linux

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Windows Update Agent Resiliency and Security Enhancement (HCL Technologies)

- Architected and implemented a new client-side update agent for Windows, focusing on enhanced security protocols and resilient update delivery mechanisms, achieving a **25% reduction** in failed update rollbacks.
- Developed Python-based automation scripts integrated into Jenkins pipelines for continuous integration and testing of new agent features, accelerating the release cycle by **10%**.

- Designed and deployed the agent on AWS EC2 instances using Docker containers, ensuring scalability and efficient resource management for large-scale update deployments.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Developed a real-time payments operations dashboard using Java Spring Boot and PostgreSQL to monitor transaction flows and alert on failed payments, processing over **1 million transactions** daily.
- Implemented robust logging and monitoring with Splunk, enabling rapid diagnosis of production issues and maintaining an SLA of **99.95%** uptime for critical financial operations.
- Collaborated with business analysts to define requirements for reconciliation workflows and operational alerting, improving incident response times by **18%**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
