PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and maintained robust identity and access management solutions, integrating **OAuth 2.0** and **SAML 2.0** protocols to secure user authentication for 10,000+ enterprise accounts, achieving 99.9% system availability.
- Designed and implemented secure, scalable microservices for user profile management using **Java Spring Boot** and **PostgreSQL**, processing over 5 million API requests daily with sub-50ms latency.
- Automated identity lifecycle management processes with **Python** scripts and **Jenkins** CI/CD pipelines, reducing manual provisioning time by **40%** and minimizing human error in user onboarding.
- Enhanced observability and incident response for identity services by configuring **Splunk** alerts and **Dynatrace** monitoring dashboards, decreasing average incident resolution time by **25%**.
- Managed and supported enterprise business systems integrations via **REST APIs** and direct database queries (**MySQL**, **Oracle**), ensuring seamless data flow for critical user provisioning workflows.
- Authored comprehensive technical documentation and user guides for identity management features using **Confluence**, supporting the onboarding of 50+ new engineers to the identity platform.

SKILLS

Backend Development – Java, Spring Boot, Python, REST APIs, Microservices, Flask, FastAPI

Identity & Access Management – OAuth 2.0, SAML 2.0, JWT, SSO, User Provisioning, Role-Based Access Control

Databases – PostgreSQL, MySQL, Oracle, SQL, Data Warehousing

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

Observability & Monitoring – Splunk, Dynatrace, CloudWatch

Data Analytics & BI – Power BI, DAX, Tableau, R, pandas, NumPy, scikit-learn

Enterprise Systems – ERP Integration, Change Management, UAT Support

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Secure Identity Federation Platform

- Engineered a federated identity platform enabling seamless Single Sign-On (SSO) across 5 distinct internal applications by implementing **OAuth 2.0** and **SAML 2.0** protocols, serving 20,000+ users.
- Developed a user attribute synchronization service using **Python** and **FastAPI**, integrating with HR systems via REST APIs to maintain accurate user profiles and entitlements, reducing sync errors by **95%**.

- Deployed the platform on **AWS** using **Docker** containers orchestrated via **Kubernetes** (managed service), ensuring high availability and scalability to handle peak loads of 100,000 authentication requests per hour.

Financial Services Transaction Monitoring Dashboard

- Built and supported a **Java Spring Boot** application for a financial-services client, providing real-time transaction monitoring and operational alerting for payment flows.
- Configured **Splunk** to ingest and analyze transaction logs, enabling proactive identification of failed or stalled payment messages and reducing manual investigation time by **30%**.
- Collaborated with business analysts to refine reconciliation workflows and audit trail reporting, ensuring compliance with regulatory awareness and GDPR requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
