

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed 24x7 enterprise operations for critical revenue-generating services, ensuring continuous infrastructure reliability and minimizing customer impact through proactive monitoring and incident management processes.
- Investigated security incidents by correlating events across diverse systems using SIEM tools, analyzing source/destination addresses, usernames, and process names to identify and mitigate threats, reducing incident response time by **15%**.
- Enhanced system security by implementing vulnerability management strategies and analyzing emerging threats, contributing to a **99.9%** uptime for critical applications by proactively addressing potential security breaches.
- Maintained high infrastructure reliability for multiple revenue-generating services by performing continuous monitoring and executing incident management processes, restoring service operations and minimizing customer impact.
- Analyzed service logs and system data to investigate trends, identify errors, and implement corrective actions, improving overall system performance and stability by **12%**.
- Developed and maintained Python scripts to automate data pipelines and scheduled reporting, enhancing operational efficiency and reducing manual effort by **20%**.

SKILLS

Security Operations – SIEM, Incident Management, Vulnerability Management, Malware Analysis, Threat Intelligence

Networking – TCP/IP, OSI Model, Network Design Principles

System Administration – Linux, Shell Scripting, Cron Jobs

Programming & Scripting – Python, Java, Spring Boot

Data Analysis & BI – SQL, PostgreSQL, MySQL, Oracle, Power BI, Splunk

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Enterprise Systems – ERP Support, Change Management, REST APIs

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Security Operations & Incident Response Platform

- Developed and deployed a centralized **SIEM** solution integrating logs from 500+ enterprise servers across Linux and Windows environments, enabling real-time threat detection and analysis.

- Automated incident correlation and alerting by developing Python scripts that analyzed network traffic patterns and system logs, reducing mean time to detect (MTTD) security events by **30%**.
- Implemented comprehensive vulnerability management workflows, assessing and prioritizing patching cycles for critical systems, resulting in a **25%** reduction in identified high-severity vulnerabilities.

Payments Operations Dashboard Enhancements

- Enhanced the payments operations dashboard by developing Java Spring Boot microservices to process and monitor transaction flows, improving visibility into payment message status for financial services clients.
- Implemented robust alerting mechanisms using Splunk, notifying operations teams of failed or stuck payment messages, contributing to a **99.95%** SLA adherence for transaction processing.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
