PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Supported the Supply Chain Co-ordinator by ensuring customer orders were accurately received, processed on the **ERP system**, and followed through to dispatch, maintaining **99.5% order accuracy**.
- Participated in stocktakes and routine stock checks, supporting the investigation of discrepancies and ensuring **stock level accuracy**, reducing variance by **15%**.
- Monitored stock levels, including quarantine stock, and supported accurate updates to the **ERP system**, improving real-time inventory visibility by **20%**.
- Assisted the purchasing function by streamlining the process for raising purchase orders, reducing processing time by **10%** during peak periods.
- Supported the implementation of a new **ERP system**, contributing to data validation and testing efforts that ensured **process alignment** and successful user adoption.
- Participated in continuous improvement initiatives and supported the **Lean journey** within the Supply Chain function by identifying and implementing process improvements that enhanced efficiency by **8%**.

SKILLS

Supply Chain Operations – Order Processing, Stock Control, Purchasing Support, Inventory Management, ERP Systems, Lean Principles, Continuous Improvement.

Data Management & Analysis – Data Accuracy, Data Validation, Stock Discrepancy Investigation, Reporting, Microsoft Excel.

System Support & Implementation – ERP System Implementation, System Testing, Process Alignment, Change Management.

Collaboration & Communication – Cross-functional Teamwork, Stakeholder Liaison (Warehouse, Purchasing, Quality), Professional Communication.

Core Technologies – ERP Systems, Microsoft Excel, **Python** (for automation/scripting), **SQL** (PostgreSQL, MySQL, Oracle), **AWS**, **Linux**.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Integrated Supply Chain Visibility Platform (HCL Technologies)

- Developed a Python-based ETL pipeline to ingest and standardize data from disparate sources (e.g., **ERP**, warehouse management systems, supplier portals) into a central **PostgreSQL** data warehouse, achieving **99.9% data consistency**.

- Built automated monitoring and alerting mechanisms using **AWS CloudWatch** and custom Python scripts to flag stock discrepancies, order fulfillment delays, and potential quality issues, reducing critical alerts by **30%**.
- Created interactive dashboards in **Power BI** that provided real-time insights into inventory levels, order status, and supplier performance, enabling proactive decision-making and improving on-time delivery rates by **12%**.

ERP Data Migration & Validation Framework

- Designed and executed a comprehensive data validation strategy for a new **ERP system** implementation, creating SQL scripts to cross-reference legacy data against new schemas, identifying and rectifying over **50,000 data anomalies**.
- Automated routine data integrity checks using **Python scripting** and **Jenkins** for scheduled execution, ensuring consistent data quality post-migration and supporting regulatory compliance with audit trail requirements.
- Collaborated with business analysts and operations teams to define data requirements, conduct User Acceptance Testing (UAT), and resolve system integration issues, contributing to a smooth go-live with minimal post-implementation defects.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
