+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **Java Spring Boot microservices**, delivering new features and resolving critical bugs to enhance application functionality, contributing to a **15% reduction in reported issues**.
- Automated data extraction and transformation processes using **Python scripting**, building ETL pipelines that reduced manual data handling by **40%** and improved data accuracy for operational reporting.
- Managed and optimized **PostgreSQL and Oracle databases**, executing complex SQL queries for data validation and performing schema updates that supported **new application features**.
- Enhanced system observability by configuring and maintaining monitoring tools like **Splunk and Dynatrace**, enabling proactive incident detection and reducing critical alert response times by **20%**.
- Supported a **financial-services payments operations dashboard**, monitoring transaction flows and resolving P1/P2 incidents under strict SLAs, ensuring **99.9% uptime** for critical business operations.
- Orchestrated **CI/CD pipelines using Jenkins** and managed code deployments across various environments, improving the release cycle efficiency by **25%** through automated build and testing processes.

SKILLS

Backend Development – Java, Spring Boot, Python, Flask, FastAPI, REST APIs, Microservices, Docker

Databases – PostgreSQL, MySQL, Oracle, SQL, Data Warehousing, Data Modelling

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Jenkins, Git, Linux, Shell Scripting

Observability & Monitoring – Splunk, Dynatrace, CloudWatch

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, RStudio, pandas, NumPy, scikit-learn

Enterprise Systems – ERP Integration Support, Change Management, Jira, Confluence

Domain Knowledge – Payments Operations Dashboards, Transaction Monitoring, Reconciliation Workflows, GDPR Awareness

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Distributed Systems Performance Monitoring Platform

- Engineered a **real-time distributed systems monitoring platform** using **Java Spring Boot** and **PostgreSQL**, designed to track application performance across 100+ microservices.
- Implemented asynchronous data ingestion pipelines with **Kafka**, processing over **1 million metrics per minute** to provide low-latency visibility into system health and resource utilization.

- Developed interactive dashboards in **Power BI** that visualized key performance indicators (KPIs) and alerted operations teams to anomalies, reducing Mean Time To Detect (MTTD) by **30%**.

Automated Reconciliation Workflow for Financial Transactions

- Developed an automated reconciliation system in **Python** that processed and matched high-volume financial transaction data from disparate sources (**PostgreSQL, Oracle**), reducing manual effort by **75%**.
- Integrated with existing **REST APIs** to pull transaction logs and generate detailed discrepancy reports, ensuring data integrity and supporting audit trail requirements for a financial services client.
- Deployed and managed the application on **AWS EC2 instances**, utilizing **Jenkins** for continuous integration and deployment, ensuring reliable and timely execution of daily reconciliation tasks.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
