PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed complex production systems and resolved critical incidents, achieving **99.95% uptime** for enterprise applications by performing root cause analysis and implementing immediate fixes using **Splunk** and **Dynatrace**.
- Automated data processing and reporting tasks with **Python** scripting, reducing manual effort by **40%** and accelerating data pipeline execution times.
- Enhanced database performance and integrity across **PostgreSQL** and **MySQL** by refactoring complex SQL queries and applying strategic indexing, improving query response times by up to **30%**.
- Developed and deployed new features for a **Java Spring Boot**-based financial-services dashboard, including the creation of **REST APIs** to support enhanced transaction monitoring workflows.
- Administered and troubleshooted a large-scale **Linux** server environment, improving system stability and reducing downtime by **15%** through proactive monitoring and shell scripting automation.
- Facilitated change-control management for ERP system updates, coordinating **User Acceptance Testing (UAT)** and providing post-go-live support for critical business systems, ensuring seamless transitions.

SKILLS

Databases – PostgreSQL, MySQL, Oracle, NoSQL Concepts, SQL, Data Warehousing, MongoDB (Conceptual)

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux Systems Administration, Shell Scripting, Networking Concepts (TCP/IP, DNS, SSL/TLS)

Programming & Scripting – Java (Spring Boot), Python, REST APIs, Fast API

Observability & Monitoring – Splunk, Dynatrace, CloudWatch, Prometheus (Conceptual)

DevOps & CI/CD – Jenkins, Git, Docker, Agile/Scrum Methodologies

Business Systems – ERP Support, Change Management, UAT Coordination, Production Support, Incident Response

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, R, pandas, NumPy, scikit-learn, Statistical Analysis

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

MongoDB Performance Diagnostics & Automation Suite

- Developed a suite of diagnostic tools in **Python** and **Bash** to automate the analysis of MongoDB performance metrics, reducing troubleshooting time for complex customer issues by an average of **25%**.

- Integrated system monitoring capabilities using **Prometheus** and **Grafana**, enabling real-time visualization of key performance indicators for large-scale MongoDB deployments and alerting on anomalies.
- Created automated workflows for common database operations, including backup verification and schema drift detection, contributing to improved system reliability and reducing manual intervention by **30%**.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Engineered backend services in **Java Spring Boot** to process and monitor high-volume financial transaction messages, ensuring **99.9%** data integrity and availability for critical operational dashboards.
- Implemented automated alerting mechanisms based on transaction status and error codes using **Python**, reducing incident response time for failed payments by **20%**.
- Collaborated with business analysts to refine reconciliation workflows and transaction flow logic, enhancing the accuracy of the payments operations dashboard and supporting regulatory compliance requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
