PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Administered and supported **Microsoft 365 environments**, including Exchange Online, SharePoint, and Teams, ensuring 99.9% service availability for end-users.
- Monitored and troubleshoot **server and network infrastructure**, resolving critical incidents within defined SLAs and reducing system downtime by **15%**.
- Managed and secured **endpoints** across a distributed user base, implementing routine security checks and backup procedures that strengthened cyber security posture.
- Acted as the primary **escalation point for Level 1 analysts**, diagnosing and resolving complex technical issues to ensure rapid client system improvements.
- Developed and maintained **strong client relationships** by consistently providing timely and effective technical support, achieving a **95% client satisfaction** rating.
- Identified and implemented opportunities to improve client systems and **cyber security posture**, including proactive threat detection and vulnerability patching.

SKILLS

Microsoft 365 Administration – Exchange Online, SharePoint, Teams, Intune, Azure AD

Endpoint Management – Windows 10, Windows 11, Intune

Server & Network Infrastructure – Windows Server, TCP/IP, DNS, DHCP

IT Support & Operations – Level 2 Support, Incident Management, Service Desk, Escalation

Cyber Security – Security Monitoring, Backup Procedures, Vulnerability Management

Client Relationship Management – Technical Support, Stakeholder Communication

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Enterprise IT Support & Endpoint Management Platform

- Designed and deployed a unified **endpoint management solution** using **Intune**, supporting over 500 devices across multiple client sites and reducing deployment time by **40%**.
- Automated routine **server monitoring and health checks** via custom Python scripts integrated with **AWS CloudWatch**, proactively identifying and resolving **25% more** potential issues before they impacted users.
- Developed comprehensive documentation and training materials for **Microsoft 365 administration**, including Exchange Online and Azure AD, enabling Level 1 analysts to resolve **30% more** common queries

independently.

Financial Transaction Monitoring Dashboard Enhancement

- Enhanced a **payments operations dashboard** by implementing real-time alerting for failed transactions, reducing manual reconciliation effort by **20%**.
- Integrated new data sources into the dashboard using **Python and SQL**, improving the accuracy of transaction monitoring and supporting audit trail requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
