

HARIRAMAKRRISHNAN RAMACHANDRAN

+353 899706156 | hariramakrrish@gmail.com | [LinkedIn](#) | Stamp 1G — Eligible to work full-time in Ireland

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed native Android application features from concept to release, ensuring adherence to modern architectural patterns and delivering **end-user experiences** that delighted millions of customers.
- Supported Core Product developers by debugging **Android** and new OS feature issues, reducing critical bug resolution time by **18%** through proactive analysis and collaboration.
- Refactored and released native mobile applications, contributing to a **15%** improvement in app performance and stability across key user flows.
- Owned and fully developed distinct features for an **Android** application, managing the entire lifecycle from design to deployment and post-launch monitoring.
- Collaborated with cross-functional teams on feature and architecture implementation, integrating new components and ensuring seamless data flow across **core product domains**.
- Participated in agile practices, including pair programming and code reviews, to maintain high-quality code and achieve a **99.5%** defect-free release rate for new features.

SKILLS

Mobile Development – Android, Kotlin, Java, Android Architecture Components, MVVM, Compose, Coroutines, Client-side Persistence, DI frameworks (Dagger)

Software Engineering – Agile, Scrum, Kanban, Code Reviews, Feature Ownership, Bug Fixing, System Integration, REST APIs, CI/CD, Jenkins, Git

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux Shell Scripting

Data & Analytics – SQL (PostgreSQL, MySQL, Oracle), Power BI, Tableau, DAX, Power Query, Data Modelling

Enterprise Systems – ERP Support, Change Management, Production Support, Incident Response, Splunk, Dynatrace

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Next-Generation eBay Android Platform

- Architected and built a new native **Android** application architecture using **Kotlin**, **Compose**, and **MVVM**, designed to support millions of users globally and improve app performance by **25%**.
- Implemented robust client-side persistence solutions and integrated modern **Android Architecture Components**, enhancing data reliability and reducing state loss incidents by **30%**.

- Developed and deployed new user-facing features, including real-time updates and personalized content delivery, in an **Agile** environment with rigorous **code reviews** and pair programming.

Payments Operations Dashboard Enhancement

- Enhanced a **payments operations dashboard** by developing new real-time transaction monitoring features using **Java Spring Boot** and **Python**, improving anomaly detection accuracy by **15%**.
- Automated data validation and reconciliation workflows through **SQL** scripting across **PostgreSQL** and **Oracle** databases, reducing manual effort by **20%** and ensuring data integrity.
- Managed production support for critical financial services applications, responding to P1/P2 incidents within strict SLAs and contributing to **99.9%** system uptime.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
