PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Developed and maintained **Java Spring Boot REST APIs** for enterprise business systems, supporting cross-system integrations and achieving **99.9% uptime** through robust error handling and testing.
- Automated critical data processing and reporting tasks using **Python scripting**, reducing manual effort by **40%** and ensuring timely delivery of operational insights.
- Managed production incidents and SLA adherence for a financial-services operations dashboard, resolving P1/P2 issues within a **1-hour target** by analyzing logs in **Splunk** and **Dynatrace**.
- Enhanced a payments operations dashboard by implementing new transaction monitoring alerts, improving the detection rate of failed payment messages by **15%** and supporting regulatory compliance.
- Executed schema changes and performed complex data validation queries across **PostgreSQL** and **Oracle** databases, supporting ERP module integrations and ensuring data integrity for **100,000+** daily transactions.
- Contributed to the preparation of technical specifications and contract documents for infrastructure projects by gathering requirements and performing data analysis, ensuring adherence to project budgets and schedules.

SKILLS

Engineering & Design – Water Engineering Principles, Civil Engineering, Environmental Engineering, Infrastructure Projects, Feasibility Studies, Detailed Design, AutoCAD, Civil 3D, GIS (ArcGIS, QGIS), Hydraulic Modelling (Epanet, Synergi, MicroDrainage, HEC-RAS).

Software Development – Java, Spring Boot, Python, REST APIs, .NET, Docker, Linux, Shell Scripting, Git, Jenkins, CI/CD.

Databases & Data Analysis – SQL, PostgreSQL, MySQL, Oracle, Data Warehousing, ETL, Data Modelling, Power BI, DAX, Power Query, Tableau, R, RStudio, pandas, NumPy, scikit-learn.

Cloud & Operations – AWS (EC2, S3, Lambda, CloudWatch), Production Support, Monitoring, Incident Response, Splunk, Dynatrace, SLA Management, GDPR.

Project Management & Compliance – Agile/Scrum, Jira, Confluence, Change Management, UAT Coordination, Regulatory Awareness, Audit Trails, Health & Safety Legislation, Quality Management Systems.

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Sustainable Water Network Optimization Platform

- Designed and developed a comprehensive water network analysis platform using **Python** and **PostgreSQL**, integrating with **ArcGIS** for spatial data management and analysis.

- Implemented **Epanet** for hydraulic network modelling, simulating flow and pressure dynamics to identify optimization opportunities, resulting in a projected **10% reduction** in water loss.
- Generated detailed feasibility and design reports, including calculations and specifications, by processing simulation outputs and presenting findings through interactive **Power BI dashboards** for stakeholders.

Financial Services Transaction Monitoring Dashboard

- Enhanced a production payments operations dashboard by developing new features for real-time transaction monitoring and advanced alerting on failed payment messages.
- Automated data ingestion and reconciliation workflows using **Python** and **SQL** against **PostgreSQL** and **Oracle** databases, improving data accuracy by **98%**.
- Collaborated with business analysts to define requirements for operational dashboards, ensuring adherence to audit trail and GDPR standards in a high-availability environment.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
