PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Reduced month-end close cycle time by **15%** by automating accrual calculations and fee debtor collection processes using Python scripts and SQL queries against financial systems.
- Ensured **100% accuracy** in client billing across multiple legal entities by meticulously maintaining client static data and validating documented fee arrangements, meeting all strict reporting deadlines.
- Managed the timely capture, recognition, and billing of revenue for high-profile clients by liaising with Client Services and Business Operations teams, facilitating correct interpretation of fee arrangements.
- Strengthened **SOX and audit requirements** adherence by implementing enhanced controls in fee recognition workflows and providing detailed documentation for internal and external audits.
- Contributed as a **Subject Matter Expert** in fee-related change initiatives, analyzing requirements and ensuring successful integration of new fee structures into operational platforms.
- Resolved client and business queries regarding fees by performing timely analysis, documenting findings, and escalating issues appropriately, maintaining strong relationships with stakeholders.

SKILLS

Financial Operations – Client Billing, Revenue Recognition, Fee Analysis, Month-End Close, Accruals, Client Static Data Management, SOX Compliance, Audit Support

Data Analysis & Reporting – MS Excel (Advanced), SQL (PostgreSQL, MySQL, Oracle), Data Validation, Reporting Deadlines, Analytical Skills

Automation & Scripting – Python, SQL Scripting, ETL Processes

Financial Systems & Tools – Jira, Confluence, Financial Accounting Systems, Banking Entries, Payment Instructions

Stakeholder Management – Client Services Liaison, Business Operations Collaboration, Cross-functional Communication, Query Resolution, Escalation Management

Project Management Support – Subject Matter Expertise, Change Management, UAT Coordination, Process Improvement

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Global Fee Management & Revenue Assurance Platform

- Developed and implemented a comprehensive platform to automate fee capture, recognition, and client billing across diverse legal entities, reducing manual intervention by **40%**.

- Integrated with core financial systems using Python and SQL to ensure accurate data flows for revenue recognition and month-end accruals, achieving **99.9%** data integrity.
- Built interactive dashboards in **MS Excel** and **Power BI** for real-time monitoring of fee debtors, payment collections, and billing status, enabling proactive issue resolution and improving collection timelines by **10%**.

Payments Operations Dashboard Enhancement (HCL Technologies)

- Contributed to the production support of a financial-services client's payments operations dashboard, focusing on transaction monitoring and operational alerting for failed payment messages.
- Automated data validation checks using Python scripts, identifying and rectifying data inconsistencies that previously impacted reconciliation workflows, reducing discrepancies by **22%**.
- Collaborated with business analysts to refine alerting mechanisms, ensuring timely notification for critical issues impacting the transaction flow and improving overall system stability.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
