PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed the **IT Support queue** for enterprise applications, resolving an average of **20+ tickets daily** and maintaining SLA compliance through prompt incident response.
- Provided on-site IT support to client locations, addressing issues related to **server and laptop setups**, repairs, and user software installations, ensuring minimal disruption to business operations.
- Supported the **M365 environment**, performing administrative tasks such as user account management, permissions configuration, and application deployment across a **500+ user base**.
- Documented comprehensive procedures for **service desk operations** and software troubleshooting, enhancing team efficiency by an estimated **15%** and standardizing resolution pathways.
- Configured and maintained user software and **communications equipment**, including VoIP systems and mobile devices, ensuring reliable connectivity for all employees.
- Collaborated with **third-party vendors** to manage and resolve escalated technical issues, coordinating software updates and hardware replacements to meet service delivery objectives.

SKILLS

IT Support & Service Desk – Ticket Management, Incident Response, SLA Management, On-site Support, Vendor Management, Customer Service

Cloud & Server Administration – Office 365 Administration, Active Directory, Server Administration, Azure Fundamentals, Linux Shell Scripting

Endpoint Management – Laptop & Server Setup/Repair, Software Installation & Configuration, Communications Equipment Management

Networking – TCP/IP Fundamentals, Network Troubleshooting, VPN Configuration

Development & Automation – Python Scripting, SQL Queries, REST API Basics, CI/CD Principles

Documentation & Process Improvement – Process Documentation, Knowledge Base Creation, Efficiency Improvement

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Unified IT Operations Dashboard (HCL Technologies)

- Developed a centralized **IT Operations Dashboard** integrating data from **Splunk, Dynatrace**, and AWS CloudWatch, providing real-time visibility into system health and application performance for critical financial services.

- Automated incident triage and alerting mechanisms using **Python scripts** and Jenkins, reducing critical P1/P2 incident resolution time by **20%** and improving SLA adherence across production environments.
- Implemented data validation checks and automated reconciliation workflows within the dashboard using **SQL queries** across PostgreSQL and Oracle databases, ensuring data integrity for transaction monitoring.

Client Onboarding & Endpoint Deployment Automation

- Engineered an automated workflow using **Python** and bash scripting to streamline the setup and configuration of new user laptops and workstations, reducing deployment time by **30%**.
- Integrated with **Active Directory** and Office 365 APIs to automate user account provisioning, group policy application, and software package deployment, ensuring consistent and secure endpoint configurations.
- Authored comprehensive technical documentation and training guides for the automated deployment process, enabling the IT support team to efficiently onboard **50+ new users** per month.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
