PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Enhanced QA test processes by developing automated regression test suites, reducing production incidents by **18%** through comprehensive test case design and execution.
- Developed and maintained reusable regression tests for payment processing software applications, improving test coverage by **30%** and accelerating defect identification.
- Conducted functional and UAT testing for corporate banking applications, validating payment processing workflows and ensuring adherence to business requirements and quality standards.
- Produced high-quality user test scripts for multiple applications and workflow procedures, directly supporting the drive for automation effectiveness and quality controls.
- Analyzed application workflows and processes to identify areas for automation, contributing to a **15%** increase in the effectiveness of risk automation controls.
- Maintained clear communication workstreams between developers, business analysts, and sponsor stakeholder teams, facilitating requirement analysis and UAT coordination.

SKILLS

Testing Methodologies – Functional Testing, UAT Testing, Regression Testing, Test Strategy Development, Requirement Analysis, Test Case Design

Domain Expertise – Corporate Banking, Payment Processing Software, Financial Workflows

SDLC & Agile – Agile (Scrum), Waterfall, Change Management, Defect Management

Database & Scripting – SQL Scripting, Database Migration Testing, Python Scripting

Tools & Platforms – Jira, Confluence, Jenkins, Git, Splunk, Dynatrace, AWS

Programming Languages – Java, Python, SQL

Operating Systems – Linux

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Corporate Payments Processing & Reconciliation Platform

- Developed comprehensive test strategies and executed functional and UAT test cases for a new corporate banking payments processing platform, achieving **98%** test case pass rate.
- Designed and executed SQL scripts to validate database migration and ensure data integrity for transaction records, identifying and resolving **50+** critical data discrepancies.

- Collaborated with business analysts and developers to refine requirements, manage defects, and support the successful deployment of payment processing software enhancements.

Financial Services Operations Dashboard Enhancement

- Supported production environments with strict SLAs for a payments operations dashboard, performing transaction-flow monitoring and operational alerting for failed payment messages.
- Authored Python scripts to automate data validation and reporting tasks, reducing manual effort by **20%** and improving data accuracy for reconciliation workflows.
- Contributed to GDPR-aware production environments by implementing robust audit trails and supporting regulatory compliance initiatives within the financial services domain.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
