PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Translated complex business requirements into detailed technical specifications for payment systems, facilitating clear understanding and alignment between business stakeholders and engineering teams, which reduced requirement ambiguity by **15%**.
- Managed the end-to-end User Acceptance Testing (UAT) process for new payment features and system updates, resolving technical issues during development and post-implementation phases, ensuring successful go-lives for **5 major releases**.
- Provided domain expertise and content leadership on payment processing flows and transaction monitoring to delivery teams, ensuring proposed solutions met business needs and regulatory awareness standards, impacting **3 key client initiatives**.
- Automated data validation and reconciliation workflows using **Python scripting** and **SQL** across PostgreSQL and Oracle databases, reducing manual effort by **40%** and improving data accuracy for financial operations reporting.
- Enhanced the performance of a financial-services operations dashboard by optimizing **Java Spring Boot** REST APIs and database queries, decreasing average response times by **30%** and improving user experience for operational teams.
- Contributed to the production support of enterprise applications, performing incident response for P1/P2 issues using **Splunk** and **Dynatrace**, maintaining service level agreements (SLAs) with **99.8%** uptime.

SKILLS

Domain Expertise – Payments Analysis, Banking Domain, Transaction Monitoring, Reconciliation Workflows, Regulatory Awareness

Technical Skills – SQL, Oracle, PostgreSQL, Java, Spring Boot, Python, REST APIs, Microservice Architecture

Production Support & Operations – Incident Response, SLA Management, Change Management, UAT Coordination, Splunk, Dynatrace, CloudWatch

Data Analysis & BI – Power BI, DAX, Tableau, R, Power Query, Data Modelling, Statistical Analysis

Development & Automation – Python Scripting, ETL, CI/CD, Jenkins, Git, Docker, Linux Shell Scripting

Enterprise Systems – ERP Integration Support, Business Systems Support, Cross-System Integrations

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin

02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India

01/2021

PROJECTS

Real-Time Payments Transaction Monitoring and Alerting System

- Developed a comprehensive system for real-time monitoring of payment transaction flows, identifying and alerting on anomalies and failures to ensure operational integrity and compliance with financial-services standards.
- Engineered automated reconciliation workflows using **Python** and **SQL** against **PostgreSQL** and **Oracle** databases, reducing manual reconciliation time by **50%** and improving detection of discrepancies.
- Designed and implemented operational dashboards in **Power BI** to visualize key performance indicators for transaction processing, enabling stakeholders to quickly assess system health and identify bottlenecks, leading to a **20%** faster issue resolution.

HCL Financial Services Dashboard Enhancement

- Enhanced the production support capabilities of a payments operations dashboard by implementing advanced monitoring using **Splunk** and **Dynatrace**, which improved incident detection and reduced mean time to resolution (MTTR) by **25%**.
- Refactored existing **Java Spring Boot** microservices to improve API performance and data handling for transaction messages, achieving a **35%** reduction in latency for critical operational queries.
- Collaborated with business analysts to translate complex payment processing requirements into actionable technical tasks, contributing to the successful deployment of **3 new feature sets** that enhanced operational visibility.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
