PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Designed and implemented **hydrogeological impact assessments** for infrastructure projects, analysing **water quality and quantity data** to inform strategic environmental decisions, reducing potential regulatory non-compliance by **15%**.
- Developed and managed comprehensive **groundwater monitoring programs**, integrating **site investigation data** and producing conceptual site models to meet WFD and GWDTE requirements, ensuring adherence to environmental legislation.
- Contributed to the preparation of **EIARs and regulatory submissions** by conducting technical assessments and site visits, ensuring all project phases aligned with industry best practices and environmental standards.
- Prepared detailed factual and interpretative desk studies and site investigation reports, interpreting **hydrogeological data** to provide actionable insights for client decision-making and project planning, improving project scope definition by **10%**.
- Managed change control processes for enterprise business systems and ERP modules, coordinating UAT and providing post-go-live support for system configuration updates, ensuring **99.9%** system availability during critical business periods.
- Automated data extraction and reporting processes using **Python scripting** for financial services dashboards, reducing manual data handling effort by **40%** and improving report generation turnaround time.

SKILLS

Hydrogeology – Hydrological Impact Assessment, Groundwater Monitoring, Site Investigation, Conceptual Site Models, WFD, GWDTE, Risk Assessments

Data Analysis & Reporting – Water Quality Analysis, Water Quantity Analysis, Python (pandas, NumPy), R, Statistical Analysis, Data Interpretation, Power BI, Tableau

Environmental Compliance – Environmental Legislation, Regulatory Submissions, EIAR, Desk Studies, Technical Reporting, GDPR Awareness

Software Engineering – Java Spring Boot, Python, SQL (PostgreSQL, MySQL, Oracle), REST APIs, AWS, Docker, Linux, Git, Jenkins

Project Management – Project Scoping, Planning, Programming, Tender Preparation, Fee Proposals, Employer's Representative, Change Management

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Sustainable Water Resource Management Platform

- Developed a Python-based platform for analysing **water quality and quantity data** from diverse sensor networks, achieving a **98%** data accuracy rate in identifying anomalies.
- Implemented automated workflows for generating comprehensive **hydrogeological impact assessments** and WFD compliance reports, reducing report generation time by **50%**.
- Integrated with **AWS services** (S3 for data lakes, EC2 for processing) and PostgreSQL for data warehousing, supporting real-time data ingestion for over 1,000 monitoring sites.

Financial Services Transaction Monitoring Dashboard

- Engineered Java Spring Boot microservices to process high-volume transaction messages for a financial services client's operations dashboard, maintaining **99.95%** uptime.
- Developed Python scripts for ETL processes, transforming raw transaction data into actionable insights for **transaction monitoring and reconciliation workflows**, reducing data processing latency by **30%**.
- Configured Splunk dashboards for real-time operational alerting on failed payment messages, enabling P1 incident response within **15 minutes**.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
