PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Resolved an average of **15 critical incidents** per month for enterprise applications by performing detailed technical analysis and implementing root cause fixes, reducing recurring P1/P2 issues by **20%**.
- Automated **transaction reconciliation workflows** for financial operations using Python scripts, decreasing manual processing time by **40%** and improving data accuracy.
- Developed and deployed new REST API features for core Java Spring Boot services, enhancing system functionality and supporting a **15% increase** in downstream application integrations.
- Managed change control processes for system configuration updates across interconnected enterprise systems, ensuring **100% compliance** with deployment schedules and minimizing post-go-live defects.
- Constructed interactive **Power BI dashboards** from diverse data sources, enabling business stakeholders to monitor key performance indicators and driving a **10% improvement** in operational efficiency.
- Interpreted technical symptoms and assessed system configuration behaviour to provide clear, concise explanations to both technical and non-technical customers, resolving an average of **25 support cases** weekly.

SKILLS

Technical Support – Incident Management, Problem Solving, Technical Diagnostics, Customer Engagement, Case Management Systems, Service Desk Operations

Enterprise Software Support – Java Spring Boot, .NET, REST APIs, Production Monitoring, SLA Management, P1/P2 Incident Response

Automation & Scripting – Python, Shell Scripting, Cron Jobs, ETL, Data Pipelines

Databases & Data Warehousing – SQL, PostgreSQL, MySQL, Oracle, Data Modelling, Data Validation

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker

CI/CD & Version Control – Jenkins, Git, Code Reviews

Business Intelligence – Power BI, DAX, Power Query, Tableau, Data Visualization

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Messaging Integration Platform (HCL Technologies)

- Designed and implemented a robust message routing and transformation layer using **Java Spring Boot** and **RabbitMQ** to handle high-volume financial transaction messages, achieving **99.99% uptime**.
- Developed automated monitoring and alerting mechanisms with **Splunk** and custom Python scripts to track message flow, identify bottlenecks, and reduce average incident resolution time by **30%**.

- Integrated with upstream and downstream enterprise systems via **REST APIs** and direct database connections (**PostgreSQL**), ensuring seamless data exchange for reconciliation workflows and regulatory audit trails.

Customer Support Case Analysis Dashboard (MSc Data Analytics Project)

- Developed a comprehensive **Power BI dashboard** consolidating customer support case data from multiple sources, providing insights into issue trends and resolution times.
- Applied **DAX measures** and complex data modelling techniques to calculate key metrics such as first-contact resolution rate and average handle time, enabling data-driven support strategy adjustments.
- Automated data extraction and transformation processes using **Power Query**, reducing manual data preparation effort by **50%** and ensuring timely report delivery to management.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
