PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and deployed **Java Spring Boot microservices** for a financial-services dashboard, processing over 1 million transactions daily and reducing API latency by **15%**.
- Automated critical data validation checks using **Python scripts**, decreasing manual review time for reconciliation workflows by **40%** and improving data accuracy.
- Optimized **SQL queries** across PostgreSQL and Oracle databases for an ERP system, accelerating report generation times by an average of **30%** for business stakeholders.
- Managed production incidents for enterprise applications using **Splunk and Dynatrace**, achieving a **99.95%** service level agreement (SLA) adherence for P1/P2 issues.
- Designed and implemented interactive **Power BI dashboards** to visualize key performance indicators for business units, leading to a **10%** improvement in strategic decision-making speed.
- Supported cross-system integrations via **REST APIs** for enterprise business platforms, ensuring seamless data flow and reducing integration errors by **20%**.

SKILLS

Programming Languages – Java, Python, SQL, R
Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn
Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git
Databases – PostgreSQL, MySQL, Oracle
Business Intelligence – Power BI, Tableau, DAX, Power Query
Monitoring & Observability – Splunk, Dynatrace
Enterprise Systems – ERP support, REST APIs, Change Management

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Real-Time Financial Transaction Anomaly Detection System

- Engineered a Python-based data pipeline to ingest and process high-volume transaction data from multiple sources, handling over 50,000 events per second.
- Developed machine learning models using scikit-learn for anomaly detection, achieving a **92% precision rate** in identifying fraudulent transaction patterns.

- Built a **REST API** using FastAPI to serve real-time anomaly scores, integrating with existing financial services dashboards and reducing manual fraud investigation time by **35%**.

HCL Payments Operations Dashboard Enhancements

- Enhanced transaction monitoring capabilities within a financial-services dashboard, improving visibility into payment message flows and reducing critical alert response times by **25%**.
- Implemented automated data validation scripts in Python to reconcile transaction records, decreasing data discrepancies in reconciliation workflows by **18%**.
- Collaborated with business analysts to refine operational alerting logic, ensuring adherence to GDPR-aware production environments and audit trail requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
