PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India **09/2021 – 01/2025 (3.5 Years)**

- Developed and maintained externally consumable **REST APIs** for a web-based analytics dashboard, achieving **99.95% uptime** and reducing client integration errors by **18%**.
- Implemented automated controls and enhanced **security measures** for public-facing APIs, including token lifecycle management and **Spring Security** configurations, to meet stringent compliance standards.
- Managed and triaged operational evaluations on production systems, supporting incident response and contributing to root cause analysis for critical issues, reducing average resolution time by **22%**.
- Integrated comprehensive **observability** into API operations using tools like **Splunk** and **CloudWatch**, enabling proactive issue detection and performance monitoring for a user base of over **50,000**.
- Collaborated within a value stream team to deliver features for a mature Business Intelligence product, participating actively in sprint ceremonies, design discussions, and technical reviews to ensure high-quality software delivery.
- Enhanced CI/CD pipelines using **Jenkins** and **GitHub Actions** for automated deployment and testing of REST APIs, improving deployment frequency by **30%** and reducing manual intervention.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Spring Security, Microservices, Python

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Azure, GCP

API Security – Authentication, Authorization, Token Management, OAuth 2.0

Observability & Monitoring – Splunk, Dynatrace, CloudWatch, Logging, Alerting

DevOps & CI/CD – Jenkins, GitHub Actions, Docker, Git, Linux Shell Scripting

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, SQL (PostgreSQL, MySQL, Oracle)

Methodologies – Agile, Scrum, Incident Response, Root Cause Analysis, Change Management

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin **02/2026**

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India **01/2021**

PROJECTS

Health Data Analytics Platform (Optum Product Engineering)

- Engineered and deployed a suite of **publicly consumable REST APIs** using **Java Spring Boot** and **Spring Security**, providing access to anonymized healthcare datasets for external partners.
- Integrated **AWS services** like EC2 and Lambda for scalable API hosting and implemented automated controls for client **token life cycle management**, enhancing security and reducing manual administration by **40%**.

- Established robust **observability** with **Splunk** and **CloudWatch**, enabling real-time monitoring of API performance and transaction volumes, which led to a **15%** reduction in critical incidents.

Payments Operations Dashboard Enhancement (HCL Technologies)

- Supported and enhanced a **payments operations dashboard**, focusing on transaction monitoring and operational alerting for financial-services clients, ensuring **99.9%** processing uptime.
- Automated data validation and reconciliation workflows using **Python scripting** and **SQL** queries across **PostgreSQL** and **Oracle**, improving data accuracy and reducing manual reconciliation efforts by **25%**.
- Collaborated with business analysts to refine requirements for new features, supporting UAT and post-implementation triage for critical updates within the production environment.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
