PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Analyzed and resolved **P1/P2 incidents** impacting critical enterprise applications, maintaining **99.9% SLA compliance** by performing root cause analysis and implementing immediate fixes.
- Developed and deployed **Python scripts** for automating ETL processes and scheduled reporting, reducing manual data processing time by **40%**.
- Designed and implemented **REST API features** using **Java Spring Boot** for core microservices, enhancing system functionality and supporting downstream integrations.
- Managed and executed **change control procedures** for enterprise business systems, coordinating User Acceptance Testing (UAT) and ensuring smooth post-go-live transitions for **ERP module updates**.
- Constructed interactive **Power BI dashboards** and reports, translating complex data models and DAX measures into actionable insights for business stakeholders, improving decision-making speed by an estimated **20%**.
- Supported production environments for a **financial-services operations dashboard**, including transaction monitoring and operational alerting for payment message flows, ensuring adherence to **GDPR** requirements and maintaining audit trails.

SKILLS

Programming Languages – Java, Python, SQL, R, DAX

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics Tools – Power BI, Tableau, Splunk, Dynatrace

Methodologies & Practices – Agile/Scrum, CI/CD, Change Management, UAT, Data Modelling, ETL, Incident Response, GDPR Compliance

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Optum Enterprise Systems Integration Hub

- Architected and developed a centralized integration hub using **Java Spring Boot** and **PostgreSQL** to connect disparate enterprise business systems, including **ERP modules** and operational platforms.
- Implemented robust **REST API endpoints** for seamless data exchange, enabling real-time synchronization across systems and reducing data latency by **50%**.

- Established comprehensive **monitoring and alerting** using **AWS CloudWatch** and **Splunk**, ensuring high availability and proactive issue resolution for system integrations, achieving **99.95% uptime**.

Financial Services Transaction Monitoring Dashboard

- Enhanced a **payments operations dashboard** for a financial-services client, focusing on **transaction monitoring** and operational alerting for failed payment messages.
- Developed Python scripts to automate data ingestion and transformation for reconciliation workflows, reducing processing time for **1M+ daily transactions** by **30%**.
- Ensured production environment stability and adherence to strict SLAs and **regulatory awareness**, including robust audit trails and GDPR-compliant data handling.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
