PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India 09/2021 – 01/2025 (3.5 Years)

- Developed and deployed **Java Spring Boot microservices** for a financial-services operations dashboard, processing over 1 million transactions daily and reducing latency by **15%**.
- Automated **ETL processes** using Python scripts, integrating data from disparate sources and improving data ingestion efficiency by **30%** for downstream analytics.
- Optimized complex **SQL queries** across PostgreSQL and Oracle databases, accelerating report generation times by an average of **25%** for critical business intelligence dashboards.
- Managed production incidents for enterprise applications, resolving P1/P2 issues within strict SLAs and reducing critical downtime by **10%** through proactive monitoring with **Splunk** and **Dynatrace**.
- Designed and implemented **Power BI dashboards** with interactive visualizations and DAX measures, enabling business stakeholders to track key performance indicators and make data-informed decisions.
- Supported enterprise ERP systems by coordinating change management for system configurations and facilitating User Acceptance Testing (UAT), ensuring **99.9%** system availability post-deployment.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda), Docker, Jenkins, Git

Business Intelligence – Power BI, Tableau, DAX, Power Query

Monitoring & Operations – Splunk, Dynatrace, Linux Shell Scripting

Enterprise Systems – ERP Integration Support, Change Management

EDUCATION AND TRAINING

MASTER OF SCIENCE in Data Analytics – National College of Ireland, Dublin 02/2026

BACHELOR OF ENGINEERING in Computer Science – SNS College of Technology, Coimbatore, India 01/2021

PROJECTS

Real-Time Transaction Monitoring & Reconciliation Platform (HCL Technologies)

- Engineered a **Java Spring Boot**-based service to ingest and process high-volume financial transaction messages, achieving a throughput of 5,000 messages per second.
- Developed **Python automation scripts** to identify and flag anomalies in transaction flows, reducing manual reconciliation efforts by **40%** and improving detection accuracy.

- Implemented robust error handling and alerting mechanisms using **Splunk**, ensuring near real-time notification of failed or stalled payments and supporting strict regulatory audit trail requirements.

Customer Insights & Sales Performance Dashboard (MSc Data Analytics)

- Constructed an interactive **Power BI dashboard** aggregating customer data from multiple sources, enabling visualization of sales trends and customer segmentation.
- Developed complex **DAX measures** and performed data modelling to calculate key performance indicators, delivering insights that informed strategic marketing campaigns.
- Automated data extraction and transformation using **Power Query**, reducing data preparation time by **50%** and ensuring data consistency for reporting.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
