PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Enhanced a **web-based analytics dashboard** product by developing and securing **publicly consumable REST APIs**, integrating **Spring Security** and reducing potential attack vectors by **40%**.
- Contributed to operational evaluations and incident response for **production systems**, performing root cause analysis and implementing fixes that decreased critical P1/P2 incidents by **22%**.
- Implemented automated controls and self-serve client **token life cycle management** for external APIs, improving client onboarding efficiency by **30%**.
- Integrated **observability practices** using **CloudWatch** and **Splunk** within operations processes, leading to a **15%** reduction in mean time to detect (MTTD) production issues.
- Collaborated within a multidisciplinary value stream team, participating in sprint ceremonies and technical reviews to deliver enhancements to existing **BI products**, contributing to a **10%** increase in feature deployment velocity.
- Managed change-control processes for system configuration updates on enterprise business systems, coordinating User Acceptance Testing (UAT) and providing post-go-live support to ensure seamless integration across interconnected platforms.

SKILLS

Backend Development – Java, Spring Boot, REST APIs, Spring Security, Microservices, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, CI/CD, Jenkins, GitHub Actions, Linux

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, SQL, R, Python (pandas, NumPy, scikit-learn)

Systems Support – Production Support, Incident Response, Root Cause Analysis, Change Management, Jira, Confluence

API Security – REST API Security, Token Management, Authentication, Authorization

Data Management – PostgreSQL, MySQL, Oracle, Data Warehousing, ETL

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Optum Health Analytics API Gateway (HCL Technologies)

- Architected and built a secure, **publicly consumable REST API** gateway using **Java Spring Boot** and **Spring Security** to expose key health analytics data from a large-scale historical dataset, supporting **10,000+** daily requests.

- Implemented granular access controls and automated **client token life cycle management**, reducing manual provisioning time by **75%** and enhancing overall system security.
- Integrated comprehensive **observability** with **AWS CloudWatch** and **Splunk**, enabling real-time monitoring of API performance and error rates, contributing to a **99.95%** uptime SLA.

Financial Services Transaction Monitoring Dashboard (HCL Technologies)

- Developed and maintained a **payments operations dashboard** for a financial-services client, providing real-time **transaction monitoring** and operational alerting for failed payment messages.
- Engineered Python scripts for automated data ingestion and validation from multiple sources, improving the accuracy of reconciliation workflows by **25%**.
- Supported production environments with strict SLAs, ensuring audit trail integrity and adherence to **GDPR** awareness requirements.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
