PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER – HCL Technologies | Chennai, India

09/2021 – 01/2025 (3.5 Years)

- Managed and supported critical **Microsoft 365 environments** including Exchange Online, SharePoint Online, and Teams, ensuring **99.9% service availability** and meeting strict SLAs.
- Administered hybrid infrastructure encompassing **Active Directory**, Azure AD (Entra ID), and Group Policy, resolving complex access and configuration issues for over 5,000 users.
- Automated key operational tasks using **PowerShell scripting** and **Power Platform**, reducing manual intervention time by an average of **30%** for routine system maintenance.
- Provided **Level 3 support** for enterprise applications, troubleshooting and delivering root-cause resolutions for P1/P2 incidents within **defined SLAs**.
- Owned and executed **device lifecycle management** via Microsoft Endpoint Manager (Intune), streamlining deployment and patching for a fleet of 2,000+ devices.
- Collaborated with cross-functional teams to support system upgrades and cloud migration projects, ensuring minimal disruption to business operations and **adherence to ITIL standards**.

SKILLS

Microsoft 365 – Exchange Online, SharePoint Online, Teams, OneDrive, Intune, Power Platform

Hybrid Infrastructure – Active Directory, Azure AD (Entra ID), ADFS, Group Policy

Automation & Scripting – PowerShell, Power Platform (Logic Apps), Python

System Administration – Linux, Docker, System Upgrades, Cloud Migration

Support & Operations – Level 3 Support, Incident Management, SLA Management, ITIL Frameworks

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch), Azure AD

Development & Data – Java Spring Boot, REST APIs, SQL (PostgreSQL, MySQL, Oracle), Data Warehousing

EDUCATION AND TRAINING

**MASTER OF SCIENCE in Data Analytics – National College of
Ireland, Dublin**

02/2026

**BACHELOR OF ENGINEERING in Computer Science – SNS College
of Technology, Coimbatore, India**

01/2021

PROJECTS

Enterprise Application Stability & Automation Platform (HCL Technologies)

- Developed and deployed automated monitoring solutions using **Python** and **AWS CloudWatch** for a suite of financial services applications, reducing critical incident detection time by **40%**.
- Implemented a comprehensive incident response framework, incorporating **Splunk** for log analysis and alerting, which supported the resolution of over 500 high-priority tickets within strict **SLAs**.

- Automated routine data validation and reconciliation checks for transaction processing workflows using **SQL** and **shell scripting**, improving data integrity and reducing manual processing effort by **25%**.

M365 & Azure AD Hybrid Environment Optimization

- Engineered a unified identity management solution by integrating **Active Directory** with **Azure AD (Entra ID)**, enhancing security and simplifying user access across hybrid resources.
- Designed and implemented automated user provisioning and de-provisioning workflows using **PowerShell** and **Microsoft Graph API**, cutting onboarding/offboarding administration time by **60%**.
- Managed the lifecycle of 1,500+ endpoints using **Intune**, ensuring consistent policy enforcement and timely security patching across the corporate device fleet.

ACHIEVEMENTS & CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California, Davis** (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
